2024/25 TRIP COLLECTION

## EDITORIAL

Dear Edelweiss friends, dear motorcycle enthusiasts,

In 2023, we successfully implemented a lot of new projects, and now we're eager for (even) more. With the constant aim of providing you with unforgettable experiences on two wheels, we continue to grow – and surpass ourselves! 2024 is dedicated to creation, and we are looking forward to the upcoming season with great anticipation.

One cause for celebration is the planning of our new company building. It will offer enough space for our team, our motorcycle fleet and support vehicles as well as plenty of inspiration. Because one thing is certain: We're not short on ideas.

We have once again expanded our standard program with some fantastic travel programs for 2024. We are introducing two charming new tours in Southern Europe: magical Portugal and the southern Apennines in beautiful Italy – places that are still relatively unknown and therefore true insider tips.

As new long-haul destinations for 2024, we have included Namibia, the venue of the GS Trophy 2024, in our program – for everyone who loves gravel roads and stunning, diverse landscapes. For those who prefer a more classic experience, we now offer a sensational touring area in Southern Brazil with countless curves, good asphalt, and many culinary highlights. And also off-road fans can rejoice, because Edelweiss will be part of the annual KTM Adventure Rally. We can't wait to see where KTM is going to take us 2024.

To top it all off, we once again expanded our fleet and are happy to offer you the long-awaited new BMW R1300GS on most of our tours now. In total, over 200 motorcycles will be available in our fleet for 2024. Sounds like fun? Well, it definitely is!

All these developments, along with our new website and booking platform, which will make online bookings easier than ever, would be impossible without our guests. That's why we want to say thank you! Thank you for your trust, loyalty, and friendship! We are looking forward to seeing you again soon!

## THE ART OF MOTORCYCLE TOURING

Since 1980 it has been our goal to discover as much as possible of our beautiful planet on a motorcycle. Thereby, our guests' needs and wishes have been constantly changing, therefore standing still has never been an option for us. However, after all this time one thing always stayed the same: Our values, which we stick to and which make us the #1 in guided motorcycle tours worldwide today.

### WHAT REALLY COUNTS

It is our passion, characterized by the history of our company, with which we make motorcycle dreams come true every day. The very first tours back then started at the Edelweiss headquarters in Mieming – today we ride the whole world and discover the most beautiful spots of this earth on two wheels with you. In this regard, we leave nothing to chance. Reliability, safety, quality: This is what Edelweiss stands for. The trust we get from our guests is based on decades of touring experience and our ambition to always set the bar a bit higher. It gives us the possibility to surpass ourselves to offer you an unforgettable motorcycle adventure. Respect, appreciation and hospitality are key words in this context and go without saying in our everyday work.

We at Edelweiss serve guests from all over the world, but no matter which age or sex, which skin colour or nationality – we are connected by the passion for riding motorcycles and this is everything that counts. For us as a travel operator this means to be open for the dreams and wishes of our guests and to sometimes break fresh grounds through innovation, flexibility and the right amount of courage in order to make the perfect journey a reality for everyone and anyone.

Thereby, we never lose sight of our mission and our goal:  
„We make your two-wheeled dreams come true!“

WORLDWIDE THE #1

## WHAT'S THE SHOE FOR THE HIKER, IS THE BIKE FOR A BIKER

### AT EDELWEISS BIKE TRAVEL WE OFFER THE PERFECT RIDE FOR EACH RIDER AND DIFFERENT TERRAINS!

When going on a motorcycle tour, the right choice of motorcycle is one of the most essential parts of your trip. If you feel comfortable on the bike you sit on, it will be a fun and enjoyable experience. This is why we have so many different motorcycles in our fleet – so you can find the right bike to fit your individual preference and riding style.

### EVERYTHING THAT MAKES A RIDER'S HEART BEAT FASTER

The Edelweiss fleet ranges from big touring to more agile and sporty bikes; from small engines to big twins; from powerful motorbikes to fun-to-ride scooters. Just choose what is best for you and the touring destination. Testing another motorcycle can be incredible fun and yet you also have a special connection to your own motorcycle.

On Edelweiss tours you can either rent a bike from us or ride your own. You decide!

Our company-owned fleet is located and maintained in Austria. Across Europe, we take our own bikes wherever possible – from Southern Italy to Iceland, from Norway to the Atlantic Wall. On our overseas tour destinations, we have long-lasting relationships with trustworthy partners, who provide the best suitable bikes for their local terrain. Whenever possible, we equip our bikes with the accessories needed for a flawless motorcycle tour. If you have special requirements, let us know at the time of booking, so we can arrange the required equipment according to your wishes and needs.

### TAKE A MOMENT BEFORE MAKING YOUR CHOICE

We know it can be hard to pick from our choice of more than 200 bikes. However, before making your decision, please take a moment to consider whether the size and height of the bike is suitable for you; whether the bike is ideal for the terrain you will be riding on; and whether it is suitable for the Edelweiss touring category you've chosen. Then also consider whether it will be comfortable for consecutive riding days for you (and your pillion). At best, go test ride the specific bike at a local dealership. If you are unsure, let us know and we will gladly help you find the right bike for your perfect holiday experience!

“ THE RIGHT CHOICE OF MOTORCYCLE INCREASES THE FUN ON TOUR. ”

Florence Stoeger // Head of Operations

## THIS MOTORCYCLE TOUR GIVES AN EXCELLENT INSIGHT INTO WHAT RIDING IN EUROPE IS ALL ABOUT.

On this motorcycle tour you can discover all the things that you imagine when you think of Europe: half-timbered houses, castles and palaces, narrow roads through dense forests, ancient cities, cuckoo clocks, waitresses in dirndls, cows with bells around their necks and much more. From Munich we first head northwest, cross the Hallertau hop growing region and ride along the romantic valley of the Altmühl. Lush green landscapes accompany us all the way to Rothenburg ob der Tauber, the best-preserved medieval town in Germany. The student city of Heidelberg impresses with the longest pedestrian zone in the world and an extremely vibrant nightlife, and on the way there we get to enjoy the wonderfully winding routes of the Oden Forest. We spend our rest day in Alsace, France, in a very pretty town full of half-timbered houses and cobblestone alleys full of cozy wine bars. It's a great place to relax and unwind, but of course you could also ride your bike, as the roads in Alsace are made for riding: full of bends and with little traffic! The Black Forest is a motorcycle paradise as well, and on the way to Switzerland we cross it and discover some of its best routes. In Switzerland, we take a look at Europe's largest waterfall and then get very close to those high, snow-covered Alpine peaks. The narrow roads and tight bends on the way to Warth give you a small impression of how much fun it is to be out on a motorcycle tour across the Alps!

# ALPS AND LAKES - AUSTRIA / GERMANY

## THROUGH THE ALPINE WONDERLAND OF AUSTRIA AND SOUTHERN GERMANY – THE ALPS AND LAKES MOTORCYCLE TOUR!

This relatively short, but still very varied motorcycle tour takes you along magnificent lakes in southern Germany and Austria right into the heart of the Alps. From Munich we ride across the Chiemgau region, past lush green meadows dotted with happy cows and through villages full of maypoles and onion-shaped church steeples. We visit King Ludwig's impressive, though unfinished Herrenchiemsee Castle and the beautiful historic old town of Salzburg. After a night in the city of Mozart, we continue to the lakes of the Salzkammergut region, picturesquely embedded amongst the mountains. Here we visit the unique village of Hallstatt, so beautiful that a replica of it was built in China! We cruise along the deep blue lakes, circle the rock-and-ice giant named Dachstein and finally reach the foot of the Grossglockner, Austria's tallest mountain. Here we will spend a rest day where you can explore the rooftop of Austria on the unique High Alpine Road and catch a glimpse of the country's largest – although rapidly shrinking - glacier. Even a short detour to Italy is possible, more precisely to South Tyrol. A souvenir photo at the top of the Edelweiss peak is an absolute must for every motorcyclist in the Alps! This is an enjoyment-filled tour, well suited for passengers and relaxed riders who don't want to struggle with demanding high alpine passes but still wish to experience the beautiful world of the Alps.

# TOURING CENTER ALPS - AUSTRIA / GERMANY / ITALY / SWITZERLAND

## OUR AUSTRIAN ALPS TOURING CENTER IS A HASSLE-FREE MOTORCYCLE TOUR. BRING YOUR FAMILY!

Being on a motorcycle tour is great but packing your bag every day is not that great, finding the next hotel can be a challenge and then you have to ride almost every day, no matter what the conditions are. This tour, on the other hand, offers you five beautiful day trips from one home base, a very comfortable hotel, located right in the middle of one of Europe's best motorcycling areas, in this case the Austrian Alps. Every day you have the choice: follow your tour guide on one of those loops, embark on your own ride or do something entirely different. Play a round of golf, go to the pool or treat yourself to the spa, do some shopping, sightseeing, hiking – you decide. Bring your family, even if they don't ride. While you're out enjoying the Alpine twisties, they can take advantage of the hotel and the surrounding attractions. In the evenings you can indulge together in Austrian specialties like Wiener Schnitzel or Apple Strudel. The loops take you to some of the top riding highlights in the Alps including the famous Passo dello Stelvio, the queen of Alpine Roads, the equally stunning Passo del Rombo or the Zillertal Panoramic Road. We also cover touristic highlights like King Ludwig's castles, the city of Innsbruck or the ski jump of Bergisel. On top of that, we've got some hidden jewels in store for you as well. Enjoy a great motorcycle tour in the Alps – without any of the drawbacks.

## CURVY MOUNTAIN ROADS – THAT'S WHAT IT IS ALL ABOUT ON THIS TOUR OF THE ALPS. DON'T MISS IT!

Short and sweet: this motorcycle tour combines the very best from the world of the Northern Alps. The roads you can ride here include the “who-is-who” of the Alpine passes: Grossglockner High Alpine Road, Stelvio, Mendel, Gardena, Furkajoch, Gavia and Albula, to name but a few. Hundreds of hairpin turns are waiting for you; 87 of them on the “Stelvio” alone, a road that every motorcyclist must ride (at least) once in his life! The tour starts in Erding, a pretty town conveniently located right next to Munich Airport and therefore very close to the “Million People Village”, where you should definitely spend a few extra days. On the very first day of our tour we ride up and over the Grossglockner, stay overnight in charming Lienz and then cross the stunning Dolomites on the way to Bolzano. There in the beautiful old town Ötzi, the famous Ice-man, will be courting your attention, along with the countless fantastic motorcycle routes in the surrounding area which you should explore on our rest day. The next day the Queen of all Alpine roads, Stelvio, is on the agenda, both a pleasure and a challenge, rewarded with a spectacular view and an excellent venison sausage sandwich. We spend one night in Switzerland, collect some more passes and then return to Austria. On the last day on the way back to Erding, we will visit one of the famous castles of King Ludwig II. Straight from a fairytale - just like the whole tour!

# ALPS EXTREME - AUSTRIA / ITALY

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

## MOTORCYCLE TOURING ON SMALL HIDDEN ROADS THROUGH THE HEART OF THE ALPS!

Our Ride4Fun tours are characterized by the fact that the riding days are generally a little longer, the routes a bit more demanding and the accommodation a touch more rustic than on our "normal" classic tours. There is also no luggage transport: everyone carries their own belongings on their bikes, which is no problem because if you are busy riding from morning till night every day, you don't need much. Ties and high heels can safely stay at home. On this tour we take a look at the heart of the Alps. From Mieming, where Edelweiss' home base is located, we head south into a carousel of passes. Of course, we don't leave out top highlights like the Stelvio, but our focus is on the small, unknown passes and the less visited corners of the Alps. We ride along Lago di Molveno, over Monte Bondone, down into the Adige Valley and up again on the other side, where we spend a rest day in Levico Terme. On this day we plan an excursion to Lake Garda and the Valvestino road, which is one of the twistiest rides the Alps have to offer. On small "side passes" we cross the Dolomites and spend the night in the Puster Valley before finally return to Mieming. The concept of riding more (and maybe a little more "energetic") with less pampering and at a lower cost is well received, which is why there are now a whole series of Ride4Fun tours. Most of them have the suffix "Extreme", and this describes these tours quite well!

ENJOY THE HIGHEST MOUNTAINS,  
THE MOST BEAUTIFUL LAKES AND  
THE MANY PASSES OF THE ALPS.

The Alps are undoubtedly the most exciting, diverse and beautiful motorcycle region in the world, at least when it comes to asphalt roads. High passes with countless hairpin bends, magnificent vantage points, cozy hotels - this tour fulfills all the expectations you could have of an Alpine motorcycle adventure. We start in Mieming, the home of Edelweiss and center of the motorcyclist universe, and ride to Switzerland on the very first day to spend some time there. We admire the crystal-clear Lake Lucerne, framed by high mountains, enjoy the endless winding roads of the Swiss High Alps and spend a night in Zermatt, a beautifully situated town without any car traffic. With a touch of luck, you can experience an unforgettable sunset and/or sunrise here, at the foot of the world-famous Matterhorn! Afterwards we spend a night in Lugano, the Swiss version of the Côte d'Azur, before reaching Italy's sun valley; Val di Sole. We stay two nights high above Bolzano in Klobenstein (called Collalbo in Italian), because the most beautiful section of the Alps - the Dolomites - lie just across the valley. And of course we want to explore them extensively by motorcycle; riding the awesome roads and enjoying the incredible views. It will be difficult to say goodbye, but don't worry, even the last day is one of the best the Alps have to offer. After this tour nobody should have any chicken strips left on their tires...

HARLEY-DAVIDSON® ONLY

## PEAKS AND PASSES - AUSTRIA / GERMANY / ITALY / SWITZERLAND

THE ALPS, A TRUE MOTORCYCLE PARADISE, ARE HOME TO GREAT ROADS AND BREATHTAKING SCENERY.

Again and again we hear people say that HARLEYS® aren't nimble enough for the narrow roads of the Alps and their tight hairpin turns. This is a position we strongly oppose, because with a Harley you are perfectly equipped for any tour in the Alps. The trick is very simple: you ride slower, you enjoy more, and you have much more time for the good things along the way, because as we know speed is not a factor on a Harley. There are plenty of beautiful things to enjoy on this alpine tour: the picture-book villages in the Bavarian-Tyrolean border area, the mighty Grossglockner, the unique Dolomites with their irresistible mix of rugged rocks and lush green valleys, the historic town centers of Bolzano and Trento, the deep blue waters of Lake Garda and the soul-stirring road along its western shore and much more. You can indulge in the best cappuccino and the best pizza and pasta in the world, obviously to be enjoyed with wonderful Italian wine. At Lake Garda we spend a rest day where you could leave your Harley behind to go swimming, windsurfing or water skiing. Without doubt this is "real" Italy: the atmosphere is Mediterranean and it smells of ice cream and sunscreen. But the riding highlight is still to come: the famous Stelvio Pass, which is certainly more difficult to conquer on a Harley than on any adventure bike. But then again, the feeling of success is probably greater...

### DISCOVER & ENJOY

- Austria's highest mountain, the Großglockner
- the world-famous Dolomites
- charming cities like Bolzano, Trento and Riva del Garda
- the splendid Lake Garda

# TOURING CENTER DOLOMITES - ITALY

## A WEEK OF RIDING A MOTORCYCLE ON THE AWESOME ROADS OF THE DOLOMITES WILL MAKE YOU YEARN FOR MORE!

The famous Dolomites, with their spectacular scenery, perfect tourist infrastructure and their endlessly stunning twisty roads, are a must for every passionate rider. The outstanding combination of the best Italian and Austrian cuisines are the ingredients for an unforgettable motorcycle vacation. The countryside is dominated by tall mountains, gushing rivers, and gorge-like valleys, which offer just enough space for a narrow road. This region in the far north of Italy is a world of its own, where people, architecture, languages, roads and food are different from the rest of the country. The reason for that is South Tyrol's history of being at the center of a tug-of-war between Austria and Italy. On this tour you can enjoy the hospitality of the same beautiful 4-star hotel for an entire week; there is no need to pack your bags and move to a different location every day. Follow your guide on a variety of interesting day trips, go on your own rides or just do whatever you feel like. You can bring your family too: we promise they won't be bored. Beautiful Bolzano, home of the famous 5,000-year-old Ice Man, is only a short funicular ride away, offering a plethora of things to do. Enjoy the freedom to ride, relax, and meet the locals, right here in the stunning Dolomites.

# ALPS DELUXE - AUSTRIA / ITALY / SWITZERLAND

TAKE THE ITALIAN LANDSCAPE AND COMBINE IT WITH HISTORY, WINE AND AMAZING ROADS.

On this extraordinary “Royal” tour across the Alps, we not only focus on diverse landscapes and wonderful motorcycle routes, but also on selected culinary delights, small delicacies, and very special hotels, inns and restaurants, which are even more unique than on our “regular” tours. Satisfaction of all the senses is the center of our attention: we take in the deep blue waters of Lake Garda and the snow-covered peaks of the High Alps, we sip on delicious cappuccinos and taste heavenly wine, grappa and prosecco. In Verona we hear Romeo serenading his Juliet. We will lean our bikes side to side through the endless curves enjoying the warmth of the sun from above. All this together makes up the famous dolce vita, that priceless feeling when all that is good and beautiful gathers around you, and you wish the days – and the roads – would never end. When ripe grapes grow straight into your mouth, even in the form of wine; when one perfect motorcycle road is followed by another and when you don’t have to make any other decisions than Rosso or Bianco. Bassano del Grappa, Lago di Garda and Passo dello Mendola sound like music to your ears? Then this decadent royal pleasure tour through northern Italy is just the right thing for you! And the legendary Stelvio is on our list too!

## DISCOVER THE HIGHEST REACHES OF THE ALPS – AND SOME OF THE MOST SPECTACULAR MOUNTAIN PASSES ON EARTH!

The Alps are neither the largest nor the highest mountain range on earth, but they are most certainly the most fascinating, at least from the perspective of an asphalt-oriented motorcyclist. Between Vienna and Nice you can find hundreds of passes, with thousands of exciting, fun turns and switchbacks. This tour trilogy takes you to the 40 highest paved passes in the Alps and the countless curves that lie between them.

**Part 1** starts in Erding and takes you over the Großglockner into the heart of the Dolomites, which offer breathtaking scenery and fantastic motorcycle routes. Two rest days relax the tour, which concludes in Erding after a detour to Switzerland.

**Part 2** takes you north from Milan, we discover the Swiss passes and enjoy one rest day each in Andermatt and in Chamonix in order to leisurely collect the best and most beautiful passes. Besides the big and famous roads, there are of course also many small, unknown mountain passes on our agenda. Part 2 ends in Varese, just north of Milan.

**Part 3** starts and ends in Nice on the beautiful Côte d'Azur. From here we conquer the French Alps and also make a detour over to Italy. The highest paved „real“ road pass in the Alps will crown not only this section, but the entire trilogy of the Edelweiss „Top 40“. If you are primarily interested in motorcycling and do not want to go without the comfort of a tour guide, support vehicle and four-star hotels, this is the right place for you. - AUSTRIA / CZECH REPUBLIC / GERMANY / HUNGARY / POLAND / SLOVAKIA

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

IN TERMS OF CULTURE, HISTORY AND SIGHTSEEING, THIS MOTORCYCLE TOUR IS OUR NUMBER ONE!

This tour across Eastern Central Europe features six amazing countries, five spectacular cities, five different languages, four different currencies, dozens of castles and fortresses, several mountain ranges, a handful of national parks and a bucketful of history around every corner. For starters, the blue Danube leads us out of Vienna. Across the wine region named Wachau and through the rolling hills of the Waldviertel we ride to and enter the Czech Republic, where we are welcomed by České Budejovice, home of Budvar beer, and medieval Český Krumlov. Day two brings us across Bohemia all the way to Prague. This phenomenal city cannot be described with words, you just have to go and see it with your own eyes! Dresden, the next city on our list, was almost completely destroyed in World War II and has risen like the phoenix from the ashes after the fall of the Wall, while Krakow, the secret capital of Poland, survived the war unscathed and became probably the most beautiful city east of Paris. And Budapest, the capital of Hungary, is in no way inferior to the others, not in the sights, not in shopping and not in culinary delights. In each of those four world-class cities we spend a rest day in order to enjoy everything to the fullest. And there are also highlights between the cities, as we ride through beautiful landscapes, see defiant castles, fairytale palaces and villages where time seems to stand still. Clearly, the former Eastern Bloc is worth (at least) one trip!

## DISCOVER & ENJOY

- world-class cities such as Vienna, Prague, Dresden, Krakow and Budapest
- the Blue Danube at its most beautiful section in the Wachau
- the High Tatras, the smallest high mountain range in the world

### TRACKING DOWN DRACULA: VIENNA TO ROMANIA BY MOTORCYCLE!

Europe for motorcycle riders is far more than Italy, Southern France and Andalusia. The South-East, for example, is an absolute paradise for any two-wheeled vacation and yearns to be discovered on small, secondary roads with no traffic. This tour starts in the Austrian capital of Vienna, a top-notch destination, and along the way you'll discover unknown jewels like Košice, Timișoara and Pécs. Ride beautiful, twisty roads in the Eastern reaches of the Alps, around the High Tatras and across the Carpathians. While our itinerary focuses on Romania, it comprises up to eight countries in total, with eight different languages and six different currencies. Visits to two of those countries are optional, but riding the famous Transfăgărășan Pass and the Transalpina, still a secret jewel in this region, are definitely must-dos! While there is ample time for riding, there will also be time for sightseeing and for immersing yourself into local culture and cuisine. There are ambitious local wineries and breweries and their delicious products are definitely worth trying. Get in touch with the locals, enjoy the ever-changing scenery and dive deep into many centuries of history. See where Count Dracula lived, where Schwarzenegger grew up, and where the sweet, heavy Hungarian wine comes from. Get off the beaten track and experience a part of Europe that has been forgotten for several decades – and rediscover it for yourself

# ROME TO SICILY - ITALY

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

## AN UNFORGETTABLE MOTORCYCLE TRIP ON THE STREETS OF SOUTH ITALY AND SICILY.

Sicily, the largest island in the Mediterranean Sea, makes Italy complete. Goethe already knew this when he wrote: "Italy without Sicily creates no image in the soul. Here is the key to everything". Etna, the eternally active volcanic giant, dominates Sicily, scenically, historically and also culturally. Catania, the starting point of our tour, is located at the foot of the mighty mountain. From here we circumnavigate the island and will fall in love with it after only a few moments. Citrus fruits and almonds grow everywhere, gnarled olive trees line the roads, which are almost always narrow, winding and largely free of traffic. We visit historic sites of the Greeks, Romans and Arabs who have left their traces here; silent witnesses of the centuries. Also, the mafia stronghold Corleone should not be missed! In Taormina, the most famous town in Sicily, we will spend a rest day to relax or to have a closer look at Etna, or both! Halfway through the tour we leave Sicily, taking the ferry to Calabria on the mainland, and follow the west coast of the "boot" northwards. Here the many bays invite you to cool off in the Tyrrhenian Sea - have your swimming trunks ready! And keep your camera ready because the road and the villages clinging to the cliffs of the Amalfi Coast are more than photogenic! So too the city of Pompei, destroyed by Vesuvius in '79, and finally Rome, the Eternal City. Goethe would be delighted!

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

DISCOVER THE “SMALL CONTINENT” IN THE MEDITERRANEAN FROM ITS ORIGINAL SIDE.

Sardinia is famous for its beaches of fine white and pink sand, for its quiet coves and the exceptionally clean turquoise sea. Sailing boats and yachts fight for every landing place on the Costa Smeralda, caravanners fight for the last square feet of camping space, cars clog the coastal roads - and what do we motorcyclists do? We laugh and enjoy the forgotten roads of the hinterland between the bright red sandstone and giant granite rocks. In this dry country, where the sun often shines mercilessly, we find golden yellow cornfields, green meadows where sheep graze and grape vines that thrive magnificently. With the scent of myrtle, tangerine, pine, olive and orange trees in our noses, we ride on small roads from village to village where time seems to stand still. We'll wave to elderly farmers sitting together enjoying their espressos or grappas in peace and quiet. Here we can experience the real rhythm of Sardinia. On this tour we spend three nights in the port city of Olbia and two nights in the seaside resort of Santa Maria Navarrese, before returning to Olbia for the last night. This means that we only have to strap our luggage onto our motorcycles twice during the tour, which has a positive effect on the power-to-weight ratio of our fiery steel horses. Pizza, pasta and red wine could have a negative effect, but resistance is futile as the Sardinian cuisine is simply superb!

# BEST OF ITALY - ITALY / SAN MARINO

## LOADS OF RIDING FUN IN THE LAND OF PIZZA, PASTA AND AMORE!

There is probably no country in the world better suited for a motorcycle holiday than Italy. 95% of this boot-shaped country consists of mountains, which means that almost all roads are twisty. The scenery is magnificent, the infrastructure is excellent, the forever friendly people are motorcycle enthusiasts, the varied cuisine is always of the highest quality and the wine, beer and coffee are excellent. Away from the main roads there is little traffic and an almost endless supply of cultural, historical and natural sights, so that nobody ever gets bored. This tour takes a cross-section through the heart of Italy. It starts in Rome, the eternal city with its unparalleled wealth of history and culture, leads up to the Republic of San Marino and over to Florence, the city that resembles an open-air museum. Here we spend a rest day and then ride to Pisa to see with our own eyes the famous tower really leaning. Afterwards we continue to the Chianti region, where Tuscany appears just as it does in countless books and movies. Our overnight towns Volterra, Siena and Pienza are not very far from each other, but there is so much to see and so many beautiful roads to ride that it takes us the whole day to get from one place to another. Under the sun of Tuscany, that's where Dolce Vita can be found and on this tour you will discover it. That's a promise.

### DISCOVER & ENJOY

- the place of pilgrimage Assisi, home of Saint Francis
- San Marino, the oldest republic in the world
- the secluded Monti Sibillini National Park

# MEDITERRANEAN ALPS EXTREME - FRANCE / ITALY

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

### THE CHARMING FRENCH RIVIERA, CINQUE TERRE AND THE MEDITERRANEAN ALPS ARE WAITING FOR YOU!

The Alps extend over a length of approximately one thousand kilometers from Vienna down to the Côte d'Azur, where they drop rather steeply towards the sea. And when mountains and sea meet, two things are almost always guaranteed: great scenery and wonderful curves. This is also the case here, on both sides of the border. Liguria in Italy and the hinterland of the French Riviera are among the best in the world for motorcyclists. And this tour is one of the twistiest that Edelweiss has to offer - one of the most demanding too (at least on European asphalt). Our itinerary includes the panoramic road around Canyon du Verdon, several large and famous passes, and many small unknown passes; as well as fantastic coastal roads offering magnificent views of the Mediterranean Sea. We see numerous small mountain villages, some beautifully restored and others deserted. The much-praised villages of the Cinque Terre should not be missed, nor the view over Monaco. But the sightseeing and beautiful landscapes aside, the focus of this tour is the fun riding that the countless curvy roads offer. Or is it the combination of all this? One thing is for sure: there is hardly any place that offers better motorcycling than this one, here where the Alps meet the Mediterranean and the sun almost always shines from the clear blue sky.

### DISCOVER & ENJOY

Southern France, you're really lucky. You are so varied and so incredibly beautiful, your mountains and gorges, coasts and bays; your lovely villages and attractive, if expensive, cities, your magnificent climate, your eternal sunshine and it's very special light that only exists here. ## A TOUR THROUGH SPECTACULAR MOTORCYCLE AREAS ALONG THE MEDITERRANEAN SEA.

This tour starts in Carinthia and explores the small country of Slovenia and the north of Croatia, building a bridge between the Alps and the Balkans. At the beginning there are high mountains and lush green pastures, then we see rugged coasts and crystal-clear sea. First schnitzel and apple strudel, then cevapcici and djuvec rice. And everywhere there are exciting roads full of curves and magnificent landscapes. From Klagenfurt we ride directly into Slovenia to visit the famous Postojna Caves. Even if sightseeing is not the main focus on Extreme Tours, we cannot miss such a world-class attraction. We spend two nights in Motovun, in the very north of Croatia's Istrian peninsula, allowing plenty of time for Krk and Cres, the two largest of Croatia's countless islands. The roads here are small and narrow, offering beautiful views of hidden bays and pretty fishing villages. The second half of the tour takes place away from the coast and we spend a rest day at the Plitvice Lakes so that we can enjoy this wonderland of lakes and waterfalls undisturbed. We then head northwards via small side roads on which there is virtually no traffic. A tour of mountains and valleys; of islands, lakes and sea; of twisty roads and pure enjoyment filled with Mediterranean flair; that's exactly what you can expect here, between the Alps and the Balkans.

SEE THE HOTSPOTS OF THE ADRIATIC:  
RIDE THE AWESOME COSTAL ROADS AND  
ENJOY THE BREATH-TAKING SCENERY.

Where do Occident and Orient, jet set and tradition, modernity and antiquity intertwine in an inimitable way? In the Balkans. This unique motorcycle tour through Croatia, Montenegro and Bosnia-Herzegovina combines the best of both worlds. It begins in Split, where Emperor Diocletian's 1700-year-old palace still forms the city center today. From here we ride south to the laid-back lavender island of Hvar, then on to the "Adriatic pearl" of Dubrovnik, a former republic with a breathtaking old town surrounded by massive ramparts. Shortly afterwards we cross the border to Montenegro, a small country with a very special atmosphere. We spend our first rest day at the Bay of Kotor, where you should definitely enjoy riding the spectacular switchback road up to Lovcen National Park and the unparalleled views from the top. We continue to Bosnia-Herzegovina and are greeted by the breath of the Orient - especially in Mostar, the city that was fiercely fought over during the Balkans war. Today the famous Old Bridge seems to connect the East with the West once again. Back in Croatia, another rest day awaits us, this time in Zadar. The famous Krka National Park is close by and invites you to stroll around for a day. Of course, you can also enjoy great motorcycling here, and that's exactly what we'll do on our last day. The ride back to Split is simply fantastic - as is this entire tour of Orient and Occident!

THROUGH THE WILDEST PARTS OF EUROPE IN TWO WEEKS – TRUE ADVENTURE CAN BE SO CLOSE!

In the 21st century Europe is fully developed, domesticated and tamed. All of Europe? No, because deep in the south-east, on the Balkan Peninsula, there are still nameless peaks and wild rivers to be found where wolves and bears roam the remote mountain ranges which are up to 3000 meters high. Wonderful roads, trails and tracks crisscross this wilderness and offer 100% riding fun. On asphalt as well as on gravel, because this is an ADVENTURE tour after all! But just because we enjoy long days motorcycling doesn't mean you won't have time to soak up the culture of these countries; highlights such as the Plitvice Lakes, the huge Orthodox Cathedral in Belgrade, the fortress of Sisak, or culinary specialties such as Cevapcici, Pljeskavica or Trileçe needn't pass you by. However, it does mean that you should be prepared for intense motorcycling on challenging routes and unique experiences that each of the seven countries on our list have in store for you. What you should definitely bring is a sense of adventure and an open, curious mind. Oh yes, and a roomy wallet as we will be dealing with six different currencies! A MOTORCYCLE TOUR THAT COMBINES 3,000 YEARS OF HISTORY WITH LOTS OF SPECTACULAR RIDING FUN.

Greece has always been a dream destination. Sun worshippers, outdoor enthusiasts and educational travelers will find their paradise along the endless golden beaches and wild, rugged mountains of this fascinating country. Littered with historical sites, the country is also ideal for riding motorcycles. Unfortunately in the short time available we can only scratch the surface, but we do so quite thoroughly: Athens, the Canal of Corinth, Epidauros, Olympia, Delphi and of course the world famous Meteora monasteries are on our list, among other things; and the breathtaking roads that connect these points are highlights in themselves. But our tour includes more than just Greece: Albania, Northern Macedonia, and Montenegro are still blank spots on the map for most people, with their history, landscapes, and cultural and culinary treasures all still waiting to be discovered. On the other hand Dubrovnik, the pearl of the Adriatic Sea, has long been discovered; but despite the huge crowds its amazing historic center is always worth a visit. This tour takes you there: it will amaze, amuse you and inform you. You can choose in which direction you want to ride; in spring the tour travels from south to north and in autumn the opposite direction. Either way, this trip is extremely varied and nothing less than magic! Come follow us from Greece to Croatia – or vice versa.

## BEST OF GREECE - GREECE

COME AND BE ENCHANTED BY GREECE,  
THE CRADLE OF WESTERN CULTURE!

Ancient Greece is the cradle of our civilization, culture and society. Countless words that we use every day are derived from Greek, such as car, cosmos, democracy, atmosphere, politics, telephone, anesthesia or panorama, to name but a few. The ancient Greeks not only influenced science, art and literature, they practically invented them. Athens, the capital, is filled with more history, monuments and memorials than any other city in the world. Except for Rome maybe, but that's a different tour. On this tour you will experience some of the greatest attractions of Greece, such as the oracle of Delphi, the stadium in Olympia and the monasteries of Meteora. But there are also hidden gems that not every traveler will find, such as the Pindos Mountains, the reservoir Lake Plastira or the enchanting mountain village of Vytina, where we will spend two nights. During these fourteen days you will get to know everything that makes up the real Greece: 3000 years of culture, stunning scenery, excellent food and extremely friendly people. Not to mention the constantly beautiful, sunny weather and the wonderfully winding, empty and panoramic roads - motorcycle bliss! And every time you sit in a Kafenion and sip your **εσπρέσο**, you can enjoy the feeling of riding your motorcycle around a paradise like Greece. If the ancient Greeks only knew...

## DISCOVER & ENJOY

- unique testimonies of ancient Greek culture such as Delphi, Olympia or the amphitheater of Epidauros
- Athens with its inexhaustible culture and history
- the dizzying Meteora Monasteries built on high rocks
- the super bridge over the Gulf of Corinth
- the tranquil, beautiful island of Lefkada and many more ...

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

ONE WEEK OF THE FINEST RIDING FUN, TOPPED OFF WITH HISTORY, CULINARY DELIGHTS AND LOTS OF SUNSHINE!

254 kilometers long, up to 60 kilometers wide and with mountains that reach almost 2500 meters - this is Crete, Greece's largest and perhaps most varied island. Almost entirely mountainous with rugged rocky coasts and beautiful golden sand beaches, the climate zones range from humid-alpine to desert-like. It offers 300 days of sunshine a year, a rich history of several thousand years and a dense network of fantastic roads on which we will ride during a week. Our meeting point is Iraklion, the capital and largest city of Crete, where half of all Cretans live. From here we set off clockwise to circumnavigate the island; visiting the most important sights, enjoying the winding roads, taking in the magnificent panoramas and the savoring the fresh, varied Cretan cuisine. Olive oil is very important and found everywhere here; the island famous for its high quality. And there is almost always Ouzo, Raki or Cretan wine to go with all that lovely food. We ride to the east of the island, then along the south coast to the very west, where we stay in Chania for another two nights before we follow the north coast back to Iraklion. The charming towns and pretty villages, the fantastic motorbike routes, the beautiful landscape, the cozy taverns and cafes – the island of Crete is nothing short of heavenly. Just like this brand new "Crete Extreme" tour!

# TOUR OF THE PYRENEES - ANDORRA / FRANCE / SPAIN

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

100% RIDING FUN, LITTLE TRAFFIC AND STUNNING LANDSCAPES – THESE ARE THE PYRENEES!

The mountains straddling the border between Spain and France are still a secret, and for this very reason a destination of longing for motorcyclists; offering fantastic routes with breathtaking scenery just like the Alps, but far less travelled. Our tour starts in Castelldefels near Barcelona; from here we ride through the maze of small, winding roads that lead us first to the famous Montserrat Monastery and then deep into the hinterland of the Costa Brava. On the second day we take a break - not to rest - but to allow enough time for all those wonderful roads that seem to be made specifically for motorcyclists. Afterwards we ride through tiny Andorra and then over to France, where the roads are at least as twisty and even narrower than in Spain. We spend two nights in Carcassonne to visit the largest medieval fortress in the world and to make an excursion to the “Black Mountains”. On our way back to Spain we ride through the land of the Cathars, past the castle of Peyrepertuse and through the narrow gorge of Galamus. We spend a night just south of the border and on the last day we finally enjoy the coast, via one of the finest, most beautiful coastal roads in Europe: the GI-682. The boring name doesn't suggest how much fun, joy and fulfilment can be found on it, and the same goes for the whole tour. The Pyrenees? Oh yes, please! Over and over again!

### DISCOVER & ENJOY

- the exciting Catalan capital Barcelona (before or after the tour)
- the 1,000 year old monastery on the “sawn mountain“ Montserrat

# PYRENEES EXTREME - FRANCE / SPAIN

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

## ON THIS TOUR WE EXPLORE THE PYRENEES AND EXPERIENCE MOTORCYCLE HEAVEN.

You could spend weeks or even months in the Pyrenees, and you still wouldn't have time to ride all the beautiful winding roads - there are just too many of them! For the Pyrenees Extreme Tour we have chosen the best of the best; all the small, narrow, incredibly twisty and demanding routes that take us from the Mediterranean Sea all the way to the Atlantic coast and back again. We spend the first three days on the Spanish side of the mountains, and on the way back we choose the French side. On the last day, Spain is on the agenda again, specifically Catalonia; because we must return to Castelldefels, the suburb of Barcelona where the tour started. The emphasis of these seven days is on motorcycling - on the fun of leaning and acceleration - but there are lots of things to see on the side. And there are lots of things to taste: from tapas and paella to escargots and fromage de chèvre, accompanied by wine in all styles and colors. We always spend the nights in small villages, far away from those well-trodden tourist paths. Except in Pamplona where we stay for two nights; we could relax a little on the "rest day" in between, but there are just so many roads to ride and so many things to see. So from dawn to dusk we enjoy all the riding fun we can get, on the endlessly winding and almost completely deserted roads. Could anybody ever get enough of that?

## DISCOVER & ENJOY

# ANDALUSIA TOUR - GIBRALTAR / SPAIN

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

### A TOUR OF ANDALUSIA IS ABOUT TAPAS, WINE AND SCENERY – AND ABOUT NEVER-ENDING TWISTIES!

Deep in the south of Spain, landscape, culture and history meet in the region called Andalusia. There are high mountains and beautiful coastlines, historic cities with important monuments and phenomenal roads; perfect for riding motorcycles. The Andalusians are friendly and full of life, they like to dance Flamenco and enjoy their siesta, populating the plazas and avenidas of their magnificent cities in the evenings. They love good food and their excellent red wine, they are proud of their traditional dresses and customs - and they maintain a sporty riding style - sometimes with a knee on the ground. We leave our knees up but still have a lot of fun, beginning on the first day when we go through the Montes de Málaga up to Granada. There we join a guided tour through the world-famous Alhambra, before continuing into the olive and almond covered hills of Andalusia, where one can watch black fighting bulls chafing at gnarled cork oaks. Arcos de la Frontera is a famous "White Town" that glows so beautifully at sunrise, just like our next destination, Ronda. We spend a rest day here in the home of bullfighting, as there is just so much to see and experience, both on and off the bikes. And even on the last day this tour pulls out all the stops. Although it may seem short in total, we still manage to ride the most beautiful roads of Andalusia and experience the soul of Spain!

# SOUTHERN SPAIN EXTREME - SPAIN

SPECTACULAR ROADS, AN ENDLESS BLUE SKY AND ETERNAL SUNSHINE: IT JUST CAN'T GET ANY BETTER!

Andalusia is commonly known for its delicious tapas, colorful fiestas and fiery flamenco. It has breathtaking, often very remote landscapes and historical highlights; plus the sun-drenched south of Spain offers incredible winding roads that make every motorcyclist's heart beat faster. Roads like these are our elixir of life and form the essence of this amazing tour. It starts in Málaga on the sunny Costa del Sol and, as usual on Extreme Tours, stays away from the tourist crowds to discover the real, unspoiled countryside. And we even get a little taste of the neighboring province of Castile La Mancha. There are mountain ranges in every direction, full of magnificent roads offering curves of all shapes and sizes; most in excellent condition. We cross this wonderland, cruising from one Sierra to the next, swinging from curve to curve, all day long and every day anew. Sierra de los Filabres, Embalse de Guadalcaén, Puerto de las Palomas - the names of the places along our route sound like music. Above us the sun shines from the eternal blue sky and we feel like we were beamed to rider's paradise. Or to the Wild West; because the scenery here very often resembles Arizona and was frequently used as a filming location. In the main square of Tabernas, for instance, Clint Eastwood's shadow still leans against the wall and waits for High Noon...

## DISCOVER THE HOME OF FLAMENCO & FADO, TAPAS & PORT. EXPERIENCE SPAIN & PORTUGAL!

The southwestern corner of Spain and the south of Portugal are very similar in many ways, and yet they are worlds apart. The time zone, language, music, cuisine and much more changes abruptly when you travel across the border; but the scenery is equally spectacular on both sides, as are the motorcycle routes. On this eleven-day tour, you'll enjoy beautiful motorbike roads along the coast, over passes and across gently rolling hills. Olive groves alternate with cool forests of cork oak, and rugged cliffs with golden beaches. You should definitely take a swim in the crystal-clear sea of the Algarve coast! A day of rest in Seville can be enjoyed with fiery Flamenco rhythms, tapas and deep red vino tinto; while in Lisbon you can wash down your Bacalhau with a glass of port in a Fado bar. Both cities are beautiful, full of history and culture and absolutely unique! Ronda, Faro and Córdoba also offer a lot to see - even between the cities there is never a dull moment. Riding a motorcycle is great fun thanks to the many bends and minimal traffic. With port wine in our luggage, flamenco in our ears and so many memories, we finally return to our start hotel in Málaga. By the way, this is also the starting point for other Edelweiss tours, so if you like Spain and Portugal, then you've come to the right place!

# MOTORCYCLE DREAM PORTUGAL - PORTUGAL / SPAIN

## ONLINE BOOKING & DETAILS

## RIDING FUN UP IN GREEN NORTHERN PORTUGAL

Unjustifiably, Portugal is often overshadowed by Spain, but the small country on the Atlantic has a few advantages over its much larger neighbor. Not only does it have bigger waves (off Nazaré), longer bridges (Vasco da Gama Bridge) and Europe's most visited pilgrimage destination (Fátima), but it also boasts a capital city by the sea and the much more mournful national music (fado). Portugal's wines are at least equal to Spain's, and the tapas, called petiscos here, are the best in the world, according to many experts. This signature tour focuses on Northern Portugal, but also takes you through quite a bit of Spain for reference.

There are fantastic cities along the route, first and foremost Lisbon of course, but Porto, Coimbra and Salamanca are also worth a closer look. There are wonderful beaches and plenty of wild hinterland, especially in the border region, which is extremely sparsely populated. Northern Portugal is remarkably mountainous, and here you will find the best motorcycle routes, which are in no way inferior to those in Spain. The country is green, crisscrossed by rivers like the famous Duoro and dotted with castles, pretty villages, and nature reserves.

Beautiful green Portugal is a fantastic destination, not only but especially for motorcyclists. Riding fun on well-maintained yet largely traffic-free roads, combined with plenty of history and unforgettable culinary delights, that's the stuff dreams are made of. Live your dream now, in Northern Portugal and Western Spain!

## ENJOY A WEEK OF FANTASTIC ISLAND-HOPPING ON THE CANARY ISLANDS AND FEEL ETERNAL SPRING!

Despite their geographical proximity, the Canary Islands are very different from one another. There are seven in total, but we will only visit the three that are best suited to motorcycling. La Gomera, the smallest of the three islands, offers yawning gorges, lush gardens, vineyards, banana plantations and deep laurel forests. A little rougher is Gran Canaria, known as the mini continent, where you can find landscapes from deserts to forests. The largest of the islands, Tenerife, is also the most diverse and home to the huge volcano El Teide; the highest mountain in Spain, whose summit is snow-capped deep into the summer. The three islands are united not only by their magnificent landscapes and pleasant climate (best described as an "eternal spring"), but also their abundance of fantastic roads. A motorcycle paradise par excellence, the islands offer endless riding pleasure even during the winter months! Take a break from the cold of winter and come with us to the balmy Canary Islands, which can be reached in just five hours from Central Europe. We stay one night on La Gomera, two nights on Gran Canaria and three nights on Tenerife; ferries between the islands are pre-booked and included, but you need to carry your luggage on your bike. This tour is a riding challenge and a feast for all senses - come and see for yourself!

LOOKING FOR SOMETHING UNUSUAL?  
THIS TOUR IS ABOUT HISTORY, SCENERY,  
WINERIES – AND RIDERY!

Belgium, Luxembourg, Germany's westernmost and France's north-easternmost corner: riders usually don't think about this area when planning a motorcycle holiday. Sure, the Ardennes are not the Alps and Chianti is certainly better known than Mußbacher Eselshaut from the Palatinate, but in terms of diversity and intensity of experience this tour can easily compete with all the others. The landscape is beautiful; there are deeply cut river valleys, countless romantic half-timbered villages, impressive numbers of castles and palaces, endless vineyards and fascinating historic cities like Aachen or Nancy. The tour introduces you to four countries and even takes you a few kilometers into a fifth; the Netherlands. It offers some very special attractions such as the legendary Nürburgring-Nordschleife, aka "Green Hell", Verdun's battlefields of the First World War and the huge radio telescope in Effelsberg. And all these highlights are connected by a dense network of wonderfully small motorcycle roads with many bends and minimal traffic. You won't miss out on any motorcycling fun in the Eifel, Ardennes and Vosges mountains; and you can even enjoy excellent routes in Luxembourg. From a culinary point of view everyone gets their money's worth; from Moselle wine to Trappist beer and Aachener Printen to Ardennes ham, there are endless opportunities for new discoveries.

FROM PARIS TO OMAHA - FRANCE

ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

FROM PARIS, THE CITY OF LOVE, TO THE RUGGED CLIFFS OF BRITTANY AND THE BEACHES OF NORMANDY.

Paris is the most visited city in the world, and there is good reason for it. Take some time to explore it and then come along on this motorcycle tour through northern France. First, we follow the Loire and admire some of the magnificent castles lined up along the river like pearls on a string. Heart and soul of the "Grande Nation" dwells here and cities like Tours and Angers are indescribably beautiful. Small side roads lead us to the Atlantic Ocean and to Brittany, where the Celtic culture and the old Gaelic language "Brezhoneg" are still present. Carnac is famous for its megaliths; the endless rows of stones erected over 6000 years ago will capture your imagination. After a rest day in Carnac, we circumnavigate the peninsula and enjoy some of the many natural and cultural highlights. The pink granite coast, for example, is unique in the world, as is St. Malo and its larger-than-life city walls. Past the world-famous Mont St. Michel, we finally reach the city of Bayeux, where we spend two nights and dedicate ourselves to "battlefield tourism". For it was here, on the beaches of Normandy, that the Allies landed in 1944 and liberated Europe. This massive military operation left deep scars and countless historical sites, monuments and military cemeteries still attract visitors from all over the world. Northern France may not have any mountains in store, but its wealth of history, culture and French way of life are absolutely first class!

# THE VIKING EXPERIENCE - NORWAY

## FJORDS, ISLANDS AND GLACIERS COME TOGETHER ON THIS FANTASTIC TOUR THROUGH NORWAY!

At over 75,000 kilometers in length, Norway's coastline is one of the longest in the world, and one of the most beautiful. The secret behind all this beauty is the famous fjords - inlets that reach up to 200 kilometers into the interior of the country. This motorcycle tour starts in Oslo, one of the smallest capitals in the world. Riding through the wild and untouched Telemark we head west and spend a night in Vrådal before we reach the fjords the next day. The descent to Sola leads through breathtaking scenery. Here we spend a rest day before riding north, along the fjords and across on ferries or bridges. The destination is Bergen, considered to be the most beautiful city in Norway. Don't worry about Bergen's reputation as the wettest city in the country: the air is so clean and clear and the seafood so fresh that you will hardly notice the few raindrops. Via Sogndal we reach Jotunheimen National Park, home to Scandinavia's highest mountains and largest glaciers. The landscape - and possibly even the temperatures - will remind you of Antarctica! We ride up Dalsnibba, the highest road in Northern Europe, to marvel at the breathtaking views of the Geirangerfjord 5,000 feet below. We then enjoy a ferry cruise on that very fjord or circle around the switchbacks of Trollstigen and admire Trollveggen, Europe's highest vertical rock face. At the end of our tour in Ålesund you can reflect on your voyage through the land of the Vikings whilst enjoying an unforgettable sunset.

# TOURING CENTER NORWAY - NORWAY

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

## ALONG, ACROSS AND AROUND THE WORLD'S MOST FAMOUS FJORDS: THIS IS MOTORCYCLING IN NORWAY!

Many of the scenic and road-building highlights of Norway's Fjords are clustered in relative proximity to picturesque Ålesund, one of the country's prettiest cities. This wonderland is destined to be our touring center, where we spend a week in the same hotel and - completely unburdened by luggage - go on five wonderful day trips. These rides take us to countless fjords, including the spectacular Geirangerfjord, and to the "Stairs of the Trolls," the famous Trollstigen. We also ride to the bird island of Runde, on the unique Atlantic Road and up to Dalsnibba; the highest accessible point in Northern Europe. We visit ancient stave churches and roaring waterfalls, eat the freshest fish and the best strawberry cake. And as we're only 5° south of the Arctic Circle, we can admire endless sunsets. And the roads? They are all well maintained and in excellent condition, almost always winding and rarely clogged by cars, buses or trucks. Despite the strict speed limit, riding through the countryside and along the coasts in such a relaxed manner is pure pleasure. Some roads are curvy enough that even below 80 km/h you can lean your bike nicely for plenty of riding fun. And finally, a word about the weather: even in Norway the sun shines relatively often - perhaps not as often as in Spain for example, but then it also never gets unpleasantly hot...

## DISCOVER & ENJOY

- the enchanting Art Deco city of Ålesund
- the world famous Geirangerfjord and countless beautiful others
- the spectacular switchbacks of Trollstigen

# ADVENTURE NORTH CAPE - FINLAND / NORWAY / SWEDEN

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

## THIS MOTORCYCLE TOUR BRINGS YOU TO EUROPE'S MOST NORTHERN POINT – THE NORTH CAPE.

It is common knowledge that Norway is a very long country, but to experience how long it really is, once in your lifetime you should travel all the way to the top, preferably by motorcycle. Our tour starts deep in the south of the country, in the unmissable Ålesund. From here we ride over the famous Trollstigen to Trondheim, the gateway to the north, and then further northwards; sometimes via the rugged coast, sometimes through the remote and isolated hinterland. We cross the Arctic Circle, an event which must of course be captured in a photo. We then ride the ferry to the Lofoten; a chain of barren, world-forgotten islands whose unspoiled beauty will remain in your memory for a long time. They are connected by bridges and tunnels and so we soon reach the mainland again. The further north we go, the longer the days get; the nights get shorter and finally disappear completely. One hardly gets tired as long as it's bright outside, which comes in handy as some of our riding days are quite long. More and more the anticipation rises to the destination of the journey: the legendary North Cape, where every motorcyclist must visit once in their life. As a reward for the long journey there is one final photo: you in front of the huge globe monument. A day later this fantastic tour ends in Tromsø.

## DISCOVER & ENJOY

- the end of all roads at Europe's northernmost point, the North Cape
- the feeling of riding north of the polar circle

### THE ISLE OF MAN AND NORTHERN GREAT BRITAIN: A MAGICAL WONDERLAND AND ANY RIDER'S DREAM!

Great Britain is a fascinating travel destination. Of course we motorcyclists are especially drawn to places where the countryside is hilly or mountainous - like Northern England and Scotland - and that's exactly where our tour will take you. It starts in the Beatles' city of Liverpool and offers you everything that Britain is famous for: narrow roads lined with ancient stone walls and high hedges, enchanting landscapes of green hills, golden fields and crystal clear lakes, rugged coastlines with picturesque fishing villages and cozy pubs with superb beer and excellent food. Not to mention the countless castles and palaces in spectacular locations and fascinating cities like Inverness and Edinburgh. The locals are extremely nice and very positive about motorbikes and motorcyclists; after all, the UK is the home of the Isle of Man's Tourist Trophy and ManxGP. Naturally we visit this unique and beautiful island, which is full of stories even away from the hustle and bustle of racing. Further highlights include Nessie's home Loch Ness, the Highlanders home Eilean Donan Castle, Harry Potter's railway bridge and the magnificent landscapes on the Isle of Skye, to name but a few. # IRELAND AND THE WILD ATLANTIC WAY - IRELAND / UNITED KINGDOM

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

DISCOVER SPECTACULAR LANDSCAPES ALONG THE WILD ATLANTIC COAST AND THE TYPICAL IRISH HOSPITALITY.

Céad míle fáilte - one thousand times welcome to Ireland! The Emerald Isle is worth your time and effort, especially if you are a motorcyclist. Vibrant cities, mighty castles, prehistoric stone circles, and spectacular natural wonders; all these and more are spread generously across the country, connected by idyllic narrow roads, free from traffic. From Dublin we first ride to Northern Ireland, where we visit Belfast and follow the Antrim Coast Road; one of the most spectacular coastal roads in Europe. You will also find the famous Giant's Causeway during our short stay in the tiny appendage of Great Britain. Now the "Wild Atlantic Way" begins, a magnificent road that runs along the rugged west coast. We arrive in Galway, full of street musicians, and enjoy the atmosphere in the pubs; a legendary mixture of fun, music and hospitality. The weathered coastline continues in the southwest of the island, especially famous are the Cliffs of Moher and the Ring of Kerry. The slogan of the Wild Atlantic Way "Where land meets sea, where untamed beauty abounds" becomes reality here. The southeast on the other hand, is gentler and more relaxed, but no less interesting. We complete our circuit around the emerald green island and ride home with a wealth of memories. Fheiceann tú in Éirinn - see you soon in Ireland!

# ICELAND - FIRE AND ICE - ICELAND

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

### EXPERIENCE UNSPOILED, PURE NATURE ON THIS TOUR THROUGH THE HIGHLANDS OF ICELAND.

In no other country in the world does fire and ice collide as violently as they do in Iceland. Active volcanoes and colossal glaciers, steaming hot springs and thunderous waterfalls, this island loves contrast. And we love this island, because it is unique, rough, barren yet magnificent, adventurous and unforgettable. If you are not fascinated by Iceland, you might find it hard to get enthusiastic about anything. We circle the island clockwise, occasionally following the ring road, but traveling mostly on small side roads, which can be unpaved sometimes. Iceland's interior, the so-called Hálendið, is difficult to access and isolated from the world; even if we have to ford a couple of rivers this is obviously where we want to go! We bathe in hot springs, eat fresh seafood (or perhaps fermented shark) and dive into the long-gone days of the Vikings and whalers. Icelanders are proud of their history and the breathtaking, unspoiled nature of their island. And they love their language - don't worry if you can't pronounce words like Þjóðhöfðingi, they all speak English. It is especially wild in the south where the tongues of the huge Vatnajökull glacier almost reach to the coast. The panoramas and the colors that you can lay your eyes on here are incomparable! After nine intensive riding days, we complete the tour around Iceland and return to the capital, Reykjavík.

## ONLINE BOOKING & DETAILS

# ALPS / ANDALUSIA / TENERIFE

## LET US TUNE YOUR RIDING SKILLS!

The mountains of the Alps, Andalusia and Tenerife are a paradise for motorcyclists: high peaks, deep valleys and many beautiful villages all linked by a dense network of dream roads. This is precisely why many people come here, with all kinds of transport: bicycles, cars, buses and of course motorcycles. But only a few of these drivers are familiar with mountainous terrain - it's no wonder some find the road conditions overwhelming. We have therefore launched the Edelweiss ALPS RIDING ACADEMY – a motorcycle holiday with a learning effect! No matter what your skill level, our instructors will step right in and guide you accordingly. We'll show you the best riding techniques for a variety of conditions, including evaluating curves of varied angles and inclines; keeping your tires exactly on the targeted line to travel safely and smoothly on these spectacular roads. We use the mountains of the Alps, Andalusia and Tenerife as a training ground to teach you the techniques that will take your riding skills to the next level.

## THIS IS HOW IT WORKS: 7 DAYS VACATION / 5 DAYS TRAINING

We will start by practicing basic riding skills at low speeds, challenging balance and coordination in a closed environment. We then take day trips from our hotel, and once on the road we frequently change positions within the group. Finally we make a two-day excursion to further extend our training on a variety of roads. The mountain roads offer us a variety of challenging tarmac, enabling us to thoroughly investigate the strengths of various riding techniques. Extremely technical mountain pass roads with tight switchbacks will favor an approach quite different to that required by sweeping curves.

# ADVENTURE PATAGONIA - ARGENTINIA / CHILE

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

## RIDE WITH EDELWEISS TO THE END OF THE WORLD IN USHUAIA!

Chile and Argentina are large, long countries. Therefore this tour through Patagonia to the southernmost end of the inhabited world is the longest stand-alone tour in the entire Edelweiss program. From our departure point of Osorno, we ride shortly north to give our full attention to the magnificent Chilean lake district. We then head south for 15 days following the Andes; sometimes on the Argentinean side, sometimes on the Chilean side. The landscape here defies imagination, it is so remote and so stunningly wild and beautiful that it is impossible to do it justice with mere words. Enormous mountains, huge glaciers, crystal clear lakes and magnificent panoramas are everywhere. We cross the Strait of Magellan by ferry and reach Tierra del Fuego. Here the landscape is barren, the wind blows incessantly, and it is cold; which is no wonder as Antarctica is just around the corner. The road ends at Ushuaia, the southernmost city in the world; here we are forced to turn around whether we like it or not. But instead of riding all the way back to Osorno, we instead we save 2,500 kilometers and conclude the tour in Punta Arenas, Chile. Here you can look back on three weeks of breathtaking nature and endless the expanses of Patagonia.

The next day we ride deep into the Andes on a breathtaking road that climbs to 5,000 meters and gives us two days of ultimate motorcycle pleasure. The legendary Inca city of Machu Picchu should not be missed on any tour of Peru and in order truly experience it we spend two nights in the nearby town of Ollantaytambo. From here it is not far to the old capital of Cuzco, which seems to have fallen right out of Spain with its beautifully restored old town. ## THE PEARL OF THE CARIBBEAN HAS MANY FACETS TO BE DISCOVERED ON A MOTORCYCLE.

Do you want to discover Cuba in its authentic way? If yes, then this tour will definitely excite you. You will communicate with your local tour guide in English or Spanish, because he or she will speak German, if at all, only very incompletely. But you can be sure that you will get all the information at first hand and an authentic impression of Cuba. If this is what you are looking for, then come to Havana, hop on a BMW or a Harley and spend a couple of happy days in Cuba; it is sure to surprise you! From Havana we ride in a big round first to the west in the region of the tobacco plantations and then to the south past the Bay of Pigs, to Cienfuegos and then on to Trinidad, the quintessential Caribbean city. We then head to the north coast by crossing the Topes de Collantes; a mountain range protected as a national park, where the road climbs up to 800 meters. After that we drive along the north coast, which is a paradise of palm tree beaches and turquoise bays, back to Havana, the capital of Cuba, where people wave and dance, happy to see our motorcycles. It sometimes happens that a local takes their 1952 Harley out of the shed and joins our group - just like that - for a few miles. Yes, Cuba is unique and well worth the trip, even if you don't have that much time!

### GIGANTIC MOUNTAIN RANGES, ROARING RIVERS, NEVER-ENDING FORESTS AND REMOTE HIGHWAYS!

Canada - this word alone causes goose bumps. It conjures images of pristine wilderness, endless wide-open spaces and mighty mountains which surely no one has ever climbed. In our mind's eye we see moose, eagles and huge bears chasing the numerous salmon in the crystal-clear rivers. We see beautiful roads meandering through this wonderland; empty, safe for us and the occasional truck gleaming with chrome. We hear the Doobie Brothers rocking down the highway and just can't wait to do the same. Perhaps not in a Ford of course, but on a BMW; anything with two wheels and a big engine in between. The Rocky Mountains in British Columbia and Alberta make for the best widescreen cinema; nowhere is nature bigger and more powerful, nowhere is the sky bluer, nowhere does freedom feel as quite as free as here. We see the laid-back city of Vancouver, ride the famous Icefields Parkway, admire the turquoise Lake Louise with its thousand-meter-high cliffs behind and enjoy the Canadian hospitality in the rustic inns and taverns. You won't meet too many people but the ones you do are incredibly friendly! If you now want to bring the pictures in your mind's eye to life, then come with us to the grand, wide west of Canada and immerse yourself in nature's monumental work of art. Follow the call of the Canadian Rockies!

# ADVENTURE ALASKA - UNITED STATES

## EXPERIENCE THE GREAT WILDERNESS OF ALASKA!

Alaska is larger than France, Spain, Germany and Italy combined, but has fewer inhabitants than Frankfurt. There are over 50,000 km of coastline, more than three million lakes, active volcanoes and countless glaciers. So, it should be obvious what to expect on this tour: solitude and magnificent nature at the edge of civilization. A little thrill-seeking spirit is required when you travel to the "Last Frontier"; there's a reason why we call this an Adventure Tour. The roads may not captivate with their many curves, but instead with the landscapes they transport us through. And be sure to watch out for the moose and bears that cross them occasionally; big animals you should steer well clear of. There are huge glaciers and mountains to be seen - including Denali, the highest in North America - endless forests, thousands of lakes, thriving wildlife, and by contrast the Trans-Alaska Pipeline. Art and culture are scarce, but the Native Americans are happy to share their traditions with visitors. The tour leads from Anchorage down to the Kenai Fjords, then north to the Denali National Park where we spend our first rest day. Continuing to Fairbanks and beyond, we turn south-east, past the town of North Pole and through the beautiful Tanana Valley all the way to Tok. We then cross the notorious Thompson Pass to reach Valdez. Here we take time during our second rest day to experience the marine wildlife of Prince William Sound. Two more riding days and we're back in Anchorage.

## DISCOVER & ENJOY

- The breathtaking beauty of Kluane and Denali National Parks
- wide-open country and untouched nature
- The wild-west atmosphere in Fairbanks
- The port city Valdez and the wildlife of Prince William Sound
- Denali, formerly Mt. McKinley, the highest mountain in North America
- The customs and habits of the indigenous people - and many more ...

# MOROCCO TOUR - GIBRALTAR / MOROCCO / SPAIN

THIS MOTORCYCLE TOUR TAKES YOU TO DESERTS, OASIS AND BREATHTAKING MOUNTAIN RANGES.

1001 Nights, oriental atmospheres at colorful bazaars, snake charmers and sugar-sweet mint tea: yes, Morocco is different. And unlike other countries in North Africa or the Arabian Peninsula, you can experience all this safely, comfortably, and by motorcycle! This tour opens the Orient for us with many pictures and impressions. From the monuments of Islamic culture; the royal cities of Fez and Marrakesh to the road of the casbahs. Or the diverse landscapes of the high Atlas Mountains; with magnificent roads winding up over 2000 meters above sea level. From the rocky gorges, sand dunes, palm groves and oases to the "souks," or markets; with their narrow streets, colorful hustle, bustle and scents of exotic spices - Morocco offers a completely new experience. This tour starts in Malaga, continental Europe, but we take the ferry to Africa on the first day and ride into the middle of the Orient; into the blue city Chefchaouen. We enjoy rest days in both Marrakesh and Fez; arguably the most fascinating cities of Morocco. Plus you have the option to spend a night between the dunes of the desert, in a camp that can only be reached by camel or on foot. There the starry sky, far away from artificial light, is simply unforgettable. Erg Chebbi, the gateway to the Sahara, is the turning point of our tour, and from here we head north again.

## DISCOVER & ENJOY

# ADVENTURE NAMIBIA - NAMIBIA

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

## A MOTORCYCLE ADVENTURE FOR EXPLORERS AND NATURE LOVERS

This journey takes you to a land of endless expanses, rugged mountains, incredibly exciting wildlife and, above all, the oldest desert in the world. For these reasons, Namibia is one of the most popular and safest destinations in Africa. But just as important for us motorcyclists is the country's sparse population.

There are just 3 inhabitants per square kilometer, compared to almost 110 in the EU. So nothing stands in the way of a carefree motorbike adventure without much traffic and we can enjoy the roads and nature to the full. In any case, we will climb the highest dunes of Sossusvlei, let the fresh breeze of the Atlantic blow around our noses and take the one or the other photo safari.

All this paired with one or the other challenging gravel road. What more could a motorcyclist's heart desire?

## DISCOVER & ENJOY

# SOUTH AFRICA TOUR - KINGDOM OF ESWATINI (SWAZILAND) / SOUTH AFRICA

## CURVY MOUNTAIN ROADS, GREATS COASTS AND AFRICAN WILDLIFE!

With its high mountains and wide plains, rugged coasts and endless beaches, dry semi-deserts and tropical primeval forests, South Africa is sometimes known as the “world in one country”. It has a wealth of flora and fauna that is second to none and on this motorcycle tour you will get to see it all. Rushing waterfalls await us in the Drakensberg Mountains, and “God’s Window” offers a view that can only be described as divine. In Kruger National Park you can see lions, elephants, rhinos and many other wild animals at close range; and in the evening, while enjoying your meal under the starry sky, you can hear the lions roar in the distance. We will immerse ourselves in Zulu culture and the cultivation of wine grapes, which are pressed into some of the world’s finest wines in the Cape Town hinterland. The rest day in Franschhoek is perfect for oenological exploration! With a little luck, you’ll be able to spot whales right from the shore, and with a little courage, you might jump off the world’s highest Bungy bridge! Of course, we will also ride the famous Chapman’s Peak Drive, this magnificent panoramic road high above the roaring Atlantic Ocean, and take the obligatory photo of the famous sign at the Cape of Good Hope. And of course, we’ll ride our motorcycles extensively, because that’s what the wonderful routes in this one-world country are made for.

# ADVENTURE DUBAI & OMAN - OMAN / UNITED ARAB EMIRATES

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

## ARE YOU READY TO GET BLOWN AWAY BY THIS PART OF THE WORLD?

The United Arab Emirates and the Sultanate of Oman situated at the Strait of Hormuz – the magical sound of these words instantly generates images of immense luxury combined with exotic fairy tales of 1001 Nights. But what exactly is it that makes the Emirates and the Oman worthwhile being travelled today? To put it in a nutshell – it is all about the unimaginable mélange of our desire for the modern things in life and our affectionate love for traditional things. In our case this will be the Emirates representing the modern part while the Sultanate, although meanwhile evolved to a modern Arabic State as well, has managed to preserve its unique impression of a legendary and exotic destination, casting its spell over you by its unexpectedly diverse scenery and even more so by the welcoming Omani people. Starting our Tour of the Oman from the United Arab Emirates, we first want to get to know this part of the Arabic Peninsula. The area around the Hatta dam gives us the opportunity to learn more about a desert country's water supply. Listening to the sound of the waves, you can easily imagine the Portuguese Seafarers landing with their big sailing ships on the Omani coast around 1500. As a contrast, the fabulous, dream-like luxury hotels spotted along the coast will show us the perfect and harmonious transition into a modern world. We will roar up winding roads into the breathtakingly rugged mountain ranges towering up to 10.000 ft and neighboring the coast. But then, as a surprise while following along the easily passable, dried-out river valleys, these mountains reveal magical turquoise oases showing an unexpected abundance of water and vegetation.

# ADVENTURE SAUDI ARABIA & JORDANIA

## COVERING ANOTHER BLANK SPOT ON OUR TRAVEL MAP BY TOURING SAUDI ARABIA AND JORDAN

Up to now, Saudi Arabia has not exactly been an attractive country for motorcyclists to travel to. These days, however, Saudi Arabia has opened up and surprises us with its unexpectedly fascinating sights and its natural beauty. We seize this opportunity with both hands, and reveal for you Saudi Arabia's best sights and the most attractive roads. Our tour through the desert of Saudi Arabia starts in the city of Jeddah on the Red Sea. Contrary to the conception of a desert country, our ride through the Valleys of Al-Baha will show us a surprisingly green mountainous area. Further up north, we reach the city of Al-Ula. Unlike the pictures we might have in our minds, this place amidst the desert is the quite unexpected proof that the combination of nature, desert, art, history, and architecture perfectly well exists in unison. Akaba will be our first destination once we crossed the border into Jordan. Moving from Akaba to Wadi-Rum, Jordan's largest desert area, we immerse ourselves to the tales of Thousand and One Nights. Like in Al-Ula, we follow the footsteps of the Nabataeans at the 2000 year old city of Petra, admiring their impressive rock monuments. Riding along the King's Highway, we finally reach the Dead Sea. At 423 meters below sea level, the Dead Sea holds the record of being the lake located at the world's lowest level. Our fascinating journey through the exotic desert countries of Saudi-Arabia and Jordan ends in the city of Madaba south of Jordan's capital Amman.

## JOIN US RIDING THE ROOF OF THE WORLD!

The Himalayas, earth's highest mountains, the roof of the world, are the destination of this outstanding adventure tour. Tropical northern Thailand and Laos serve as our gateway to the wild south-east of China and the mountains of Yunnan. The paradise of Shangri-La and the world-famous Tiger Leaping Gorge are just two of the highlights on our way up to Tibet. Slowly we gain elevation and cross mountain passes higher than any pass in the Alps or Rockies. We see countless Tibetan monasteries and groups of pilgrims on their way to the holiest sites of Tibetan Buddhism. The scenery is other-worldly and stunningly beautiful. We're riding on roads that not many foreigners have ridden before. The air gets thinner and thinner, we reach the Tibetan Plateau and follow the Friendship Highway towards Nepal. Destination and literally the highlight of this tour: Everest base camp, 17,500 ft above sea level. Be prepared to have your breath taken away, the views from Rongbuk Monastery simply can't be described. After the base camp we head north again, to Lhasa. On the way is Nam Co, the world's highest-located lake, where yak herds graze and nomad families huddle around their yurts. This is nothing short of stunning, but of course by now we just can't wait to finally reach Lhasa, Tibet's legendary capital. Riding your bike past the famous Potala Palace is something you will never, ever forget. Just like the Dalai Lama says: travel to Tibet and then go and tell the world about it. There is nothing to add.

# THAILAND EXTREME - THAILAND

## THIS TOUR IN NORTHERN THAILAND GUARANTEES RIDING FUN IN AN EXOTIC SURROUNDING.

Thailand is known for lush forests and tame elephants, for noisy tuk-tuks and shiny temples, for spicy food and friendly people. You can experience all this and more on this beautiful motorcycle tour across northern Thailand; including something that few might expect: fantastic motorcycle roads. Northern Thailand is very mountainous, so the roads here are very curvy. They are in surprisingly good condition and outside the big cities they carry little traffic, so you can expect loads of fun riding them. Our tour starts in Chiang Mai and we ride east into the Nan region, where perfect motorbike roads, magnificent scenery and lots of culture await us. Further north we reach the Mekong, the lifeline of Southeast Asia, and follow it to the point where Thailand, Laos and Myanmar meet, forming the famous Golden Triangle. On old smuggler's routes we ride along the Myanmar border through dense jungle, seeing hardly any other vehicles. Many indigenous people live here, including the Padaung; the women here wear numerous golden rings around their necks making them long and thin. The road to Pai is also known as the "road of 1000 curves" and that means pure riding pleasure. Pai itself has become a center of international outdoor tourism in the last few years, and this is where we spend our last night before we return to Chiang Mai.

## DISCOVER & ENJOY

- lively Chiang Mai, the most important city in the north of Thailand
- the culturally rich province of Nan
- the legendary Golden Triangle
- the fantastic road of 1,000 curves
- the authentic, unspoiled Mae Hong Son

## DREAM ROADS IN THE LAND OF SMILES

One thing is certain: On this journey, you will experience Southeast Asia in a way that only few people ever will. We will discover the highlights of Northern Thailand and Laos while enjoying awesome rides on unique roads. We start our journey in central Thailand to avoid the traffic in the metropolis of Bangkok and head straight North. Right after crossing the border to Laos, two absolute gems are already on our agenda: the scenic beauty of Vang Vieng and the UNESCO world heritage site of Luang Prabang, where we will spend two nights.

Since Vientiane, the capital of Laos, we are accompanied by the mighty Mekong River – incidentally, one of the longest rivers in the world. In the second half of the tour, it meanders steadily westward, bringing us back to Northern Thailand where we encounter motorcycle roads that can easily keep up with the best in the world. Finally, we make a loop back to our starting point. You will be surprised how quickly two weeks can pass, and we are confident that this will not be your last motorcycle journey in Southeast Asia. A little tip: To fight the jet lag and familiarize yourself (or delight yourself) with the Asian cuisine, it's worth spending a few days in the metropolis of Bangkok before the start of the tour.

BREATH-TAKING LANDSCAPES, UNIQUE NATURE AND THE FAMOUS AUSSIE LIFESTYLE.

Most things are a bit different in down under; the distances are greater, the climate hotter and drier, the trucks longer and the animals more exotic. It would take you several months to travel the entire country, but for a good overview you need only visit the temperate southeast corner; here you'll discover many of the famous sights and most of the great motorcycle roads. The tour starts in the stunning harbor city of Sydney; a vibrant beachside metropolis that you should definitely explore before the tour starts. We head immediately south and after a night in the coastal holiday town of Jervis Bay, we turn into the hinterland. Passing the nation's capital of Canberra, we approach Australia's Snowy Mountains; a motorcycle paradise with incredible winding roads rising above 1,500 meters. Descending from the alpine region we arrive in the culture-capital; Melbourne. An overnight ferry ride brings us to Tasmania, where a completely different world awaits. Over 42% of the island is protected natural wilderness and you'd be forgiven for thinking you'd arrived at the end of the world. We spend four and a half incredible days circling the island, relishing in the unique natural scenery and magnificent motorbike roads. We allow a few more days once back in Melbourne because one of the world's most spectacular coastal routes beckons; the Great Ocean Road. Down under - it's different, but great mate!

## ADVENTURE, UNFORGETTABLE MOMENTS AND FRIENDS FOR A LIFETIME!

This is not just a tour, but an intercontinental adventure! It starts in Munich and heads east towards the Czech Republic and beyond. If someone asks you at the first coffee break, still in Bavaria, where you are going, then you should thoroughly enjoy the expression on your counterpart's face when you casually reply: "Vietnam". It'll be almost 20,000 km before you get there though! Quickly we move on to Poland and further on to the Baltic States. Along the way, there are beautiful cities like Krakow and Vilnius, which inspire and enchant us. Then we switch to adventure mode; changing to Russian territory and riding to Moscow. Here, the tension rises into the immeasurable, as we are irresistibly drawn out into the taiga. We cross the Volga and soon the Ural Mountains appear in front of us. Although "soon" should be measured by Siberian standards, as it takes us a week to get here from Moscow after all. Now the direction of travel changes towards the southeast as we head for Kazakhstan. The scenery is gently changing too, as endless forests give way to colorful steppes that accompany us to the other country's edge. Beyond the border, Kyrgyzstan fascinates us with its breathtaking, untouched mountain world. And then we enter China at one of the highest border crossings in the world; receiving our papers in Kashgar and staying for some time. There is a lot to see and experience, as Kashgar was an important trading post along the Silk Road. This trade route ran along the northern edge of the Taklamakan Desert and we follow it for a several days, while the surroundings slowly begin to match

our ideas of China. We ride to the second deepest point on earth, climb the westernmost spur of the Great Wall of China and cross the Quilian mountain range before reaching the ancient Chinese capital of Xi'an. Finally the real China! We journey further south and visit sights of all kinds; tasting fresh mangoes and other exotic fruits. All the while eating up endless curves in areas that few motorcyclists will ever experience. In Laos, everything seems quieter and more peaceful, as cities like Luang Prabang and Lak Sao radiate warmth and openness. In Vietnam we visit remarkable caves before we finally reach the tropical beaches of Da Nang where our epic adventure sadly comes to an end. And if someone asks you where you come from as you sip your sundowner, you can say: "From Germany, by motorcycle," and casually smile into the sunset.

## ADVENTURES AND EXPERIENCES THAT BECOME STORIES.

This southern route represents an alternative itinerary of the WORLD TOUR from Europe to Asia, entering China via the Balkans and the Middle East. From Munich in Germany, we take a direct route to the south-east, passing through Romania and Bulgaria before reaching Istanbul; the gateway to Asia. This stunning city has important sites like the Hagia Sophia, or Blue Mosque, and the Topkapi Palace in store for us. Turkey offers fascinating history and breathtaking landscapes, which you should also experience on foot or by hot-air balloon. After leaving the Marmara and Aegean regions behind us, we cruise through central and eastern Anatolia and enjoy landscapes that remain hidden from the typical Turkey tourist. In the very east of the country we reach the huge Lake Van and the biblical Mount Ararat; it's eternally snowcovered peak offers an incredible sight. As soon as we cross the border to Iran, the sights and monuments line up along our way southeast. Isfahan represents a significant turning point in our journey as we head north for the first time whilst giving Afghanistan and Pakistan a wide berth. Through Central Iran and the Kavir Desert we approach one of the few international border crossings to Turkmenistan. Here, the country's capital Ashgabat and the crater of Derweze, or "gate to hell", are waiting for us. However, we do not ride into hell, but to Uzbekistan, where the heavenly Samarkand is expecting us; probably the most beautiful city along the old Silk Road. We then arrive in Tajikistan, where we rest a little in the capital of

Dushanbe; the following stages on the legendary Pamir Highway will be very demanding, both to us and our bikes. Mostly at high altitude and through indescribable scenery, this phenomenal road eventually takes us to Kyrgyzstan; the last country before the routes collide. Entering China in Kashgar, the ancient oasis city on the western edge of the giant Taklamakan, we meet the participants of the northern-route tour. From here we will travel together, across the breadth of China, and down to the tropical coast of Vietnam. What a unique adventure!

# DA NANG - BALI

- CAMBODIA / INDONESIA (SUMATRA, JAVA, BALI) / MALAYSIA / THAILAND / VIETNAM

## THE SMELLS, THE NATURE, THE COLONIAL ARCHITECTURE - A TOUR FOR ALL SENSES!

After arriving in Da Nang and taking a few days off to acclimatize, we leave the coast of Vietnam on our motorcycles, heading south to the Cambodian border. Here we drive through impressive jungle landscapes and visit the fascinating temple complex of Angkor Wat. And just two days later we find ourselves in the middle of the vibrant metropolis of Bangkok. On our way south, we come by holiday resorts that most people only reach by plane! We pass majestic limestone formations towering from the jungle, visit deep caves and heavenly, palm-studded beaches. No question - this is bound to be a journey of contrasts. In Malaysia we experience everything from total tranquility in the villages, with small boutique hotels, roadside food stalls, and green backyards; to the modern life and partly futuristic scenery in Kuala Lumpur. While our motorcycles are on their way by ship across the Malacca Strait to Medan on Sumatra, we personally experience in vibrant Singapore what makes the success and fascination of this city-state, before two days later taking a plane to follow. Leaving the airport building in Medan we suddenly find ourselves in the middle of another world: the chaotic traffic, honking, and constant new impressions seem rather frightening at first, but all of that is soon forgotten as we start riding our motorcycles into the fantastic nature of Sumatra. The first stopover is the fascinating Lake Toba, located in one of the largest volcanic craters in the world. Of course, we don't miss the chance to swim in it before we start traversing the length of the island. Shortly before

Bukittinggi we cross the equator - on a motorcycle! What a great moment! We follow the somewhat less traveled west coast of Sumatra and finally roll onto the ferry to Java in the very south. Avoiding Jakarta with its horrific traffic jams, we instead turn towards the south coast, experiencing the winding mountain and coastal roads before we reach the cultural heart of Java; Yogyakarta. Via small side roads we reach the crater rim of the volcano Mt. Bromo, almost through the back door. Here the ever-present tropical vegetation gives way to a lunar landscape which we boldly put our wheels on. A last ferry transfer brings us to Bali, where we learn about culture and traditions influenced by Hinduism. Nasi Goreng, Bami Goreng, Mahi Mahi and the rhythmic Kecak songs accompany us on our journey of discovery of this unique island. We discover impressive temples, picturesque rice terraces, and colorful traditional Barong dances. We savor the exotic volcanic landscape as well as the flavorful cuisine. Rich in new experiences and the knowledge that South East Asia is full of contrasts, we reach Denpasar; the final destination of this totally incredible journey.

## HOLLYWOOD, THE WILD WEST & THE COUNTLESS SIGHTS OF CENTRAL AMERICA!

You've guessed it, we're in Los Angeles. The list of attractions goes on and on, and we take the chance to visit them as we acclimatize to the American Continent. The open road beckons and as soon as our bikes have cleared customs we head south along the coast. Riding through national parks just north of the Mexican border it's easy to imagine yourself on the set of one of the many movies set in this area.

Baja California is next on our route as we head south from Ensenada. This fascinating peninsula combines the best of sandy beach holidays with the stark beauty of a John Wayne western. Arizona is just around the corner! Smooth, tarred roads intertwine with twisty gravel tracks; a huge playground for bikers. La Paz marks the southern tip of Baja California and the start of our ride on the Mexican mainland, beginning our immersion into its fascinating culture. Our ride will take us through a seemingly endless series of "bucket list" names, such as Guadalajara (the birthplace of the Mariachis), the old town of Oaxaca and the ruins of Palenque. And along the way we will ride past mystical Popocatepetl.

It's time to pick up the pace, with a new country every two to four days. And still more famous names: ancient Antigua in Guatemala, the ruins of Copan in Honduras, "La Gran Sultana", the colonial city of Granada in Nicaragua ...

Enchanting towns and twisty roads through the Central American Jungle, riding between the Atlantic and the Pacific, life doesn't get

much better than this. As we ride south on the famous Panamericana we head for one of the most beautiful countries in the world, with a name that speaks for itself: Costa Rica.

After a few days on the Pacific coast we enter our last country of this tour section: Panama. We pass the bustling Miraflores lock, crossing the Panama Canal. With its millions of tons of transported cargo we think back to the myriad of experiences we've shared along one of the most varied and impressive sections of the WORLD TOUR.

## DISCOVER & ENJOY

- the mega-metropolis Los Angeles with all its popular highlights like Hollywood, Beverly Hills & Venice Beach
- the Baja California peninsula, for many the most beautiful part of Mexico
- charming old cities like Oaxaca, Granada or Antigua
- the remains of the Maya culture in Palenque and Copán
- the impressive and very active volcano Popocatepetl

# CARTAGENA - PUNTA ARENAS - ARGENTINA / BOLIVIA / CHILE / COLOMBIA / ECUADOR / PERU

## MORE OF EVERYTHING: NATURE, CULTURE, ADVENTURE & CURVES, CURVES, CURVES!

South America from top to bottom - on a motorcycle all the way to the end of the world! We receive our bikes in Cartagena, handle some paperwork and then start our incredible tour. The Colombian countryside, cities and people inspire us with their beauty, openness and friendliness. And the road below us has a name: Panamericana!

In the next few weeks we will ride nearly 4,000 kms of the 26,000 kilometer long north-south link. But first we make our way through the jungle of Ecuador and cross the country's namesake: the equator. We move south through Peru, between the Pacific Coast and the Andes; and for the next three weeks one highlight follows another on a daily basis. It starts with the best ceviche of South America in Lima. Past the dunes of Ica, we reach Nazca, where the mysterious geoglyphical lines of the same name are waiting to be admired. We continue on one of the best motorcycle routes in the world across the Andes to Machu Picchu. The following day we arrive at the old Inca capital of Cuzco; and then to Los Uros, the floating islands in Lake Titicaca. Here we reach Bolivia, the Altiplano Plateau and La Paz, the highest capital in the world. In this fascinating country we are thrilled by the incredible Ruta de la Muerte; a MUST for every motorcyclist in good weather.

And we ride our motorcycles on Salar de Uyuni, the largest salt lake in the world. In the Atacama Desert we head across the Andes to Argentina. Here we roam the southern Gran Chaco and via the spectacular Los Caracoles we reach the vibrant capital of Chile, Santiago. After enjoying a

well earned rest, we point our bikes towards the South, scratch the Pacific coast near Concepción and find our way to the magnificent Carretera Austral. Endless twisties take us into the Chilean rainforest and back into the Andes, which will cross multiple times over the next few weeks. Here in Patagonia spectacular landscapes and pristine nature form our daily backdrop. This sparsely populated area - less than one inhabitant per square kilometer - fascinates us and leaves a lasting impression; with fabulous natural spectacles such as the Perito Moreno Glacier and Torres del Paine, one of the most beautiful national parks on the planet. From here it is only a few days ride to the end of the world: in Ushuaia there is literally no way to go any further! Faced with the magnificence of our earth, we take a deep breath and turn north towards Punta Arenas; the final destination of this remarkable motorcycle tour.

## AN ADVENTURE THROUGH BREATH-TAKING WILDERNESS IN THE CRADLE OF MANKIND!

Africa – the birthplace of mankind! We spend our first few days in Cape Town where its townships, vineyards, waterfront and Table Mountain cast a spell on us that is hard to break.

But soon it is time to head out, leaving the Cape of Good Hope and the southernmost point of this tour section. The Mediterranean climate of the Cape soon gives way to the arid scenery of the hinterland as two days riding take us into Namibia. The gigantic Fish River Canyon inspires images of the Grand Canyon, and as we make our way to the former German town of Swakopmund the indescribable desert landscapes of the Namib Naukluft Park will take our breath away.

We wave goodbye to the Atlantic coast and start our crossing of the African continent. Ahead lay the giant salt pans of the Kalahari, a name full mystery and adventure! This arid bush savanna covers Namibia's east, all of Botswana and extends to the Victoria Falls. The pleasure of barreling down dusty tracks is interspersed with plenty of chances to play in the water. We head for Malawi via Lusaka (the capital city of Zambia) and Chipata. Senga Bay awaits, presenting an opportunity to wash off the desert dust with some R&R on its beautiful beaches. But we still have a long way to go before we hit the Indian Ocean!

But first: a safari! The chance to see the "Big Five" in their natural habitat. We leave Malawi heading north and make a loop through Tanzania. Our motorcycles will take us to the Ngorongoro Crater and the famous Kilimanjaro National Park, to name a few of the fantastic parks and reserves. We're not far from the Indian Ocean, but before we put our feet in the white sand we explore the mountains of Lushoto; navigating through the Usambara Mountains before we finish our trip after 38 fantastic expedition days.

## DISCOVER & ENJOY

- beautiful Cape Town and the famous Table Mountain
- Namib Naukluft National Park with its towering red sand dunes and the much photographed Sossusvlei
- the white plains of the Etosha National Park
- the majestic Victoria Falls, among the largest waterfalls on earth
- the fascinating Ngorongoro Crater and other animal reserves
- the still snow-capped Kilimanjaro
- the ancient, remote Usambara Mountains and many more ...

## THIS IS WHAT UNPAVED TOURS ARE ALL ABOUT:

We ride on big touring enduros with off-road tires, on official but mostly unpaved gravel roads; as well as grass, field and forest roads.

We recommend this tour for riders who already have experience riding on unpaved surfaces. But don't worry: every day we will have the possibility to choose between routes with different levels of difficulty, depending on the riding skills of the group.

On our first riding day, the most important question won't be where to go, but how. That's why we will work on our riding skills and talk about the theoretical and practical aspect of riding on unpaved surfaces.

On our UNPAVED tours we will always spend our first riding day on a practice area to prepare adequately for the upcoming days. On these tours you will be led by a tour guide on a motorcycle, whilst a second guide follows in the support van transporting your luggage. We will spend each night in comfortable hotels or guesthouses with a local flair. Breakfast and dinner are included in the tour price, and for lunch we enjoy the local cuisine in hand-picked restaurants.

ENDURO FUN IN ITALY: ENJOY A RIDE IN THE LAND OF MILK AND HONEY!

Italy is the land of milk and honey. Hardly anywhere else do good food, excellent wines, fantastically beautiful scenery and many centuries of high culture combine into such a successful mélange as here. It is also a paradise for motorcycling because the country is mountainous almost everywhere and the roads are therefore usually very twisty. And many of them are still unpaved!

From the relaxing „strade bianche“, which are often lined by the typical cypress trees, the offer ranges to quite demanding forest roads and mountain routes. On such roads you do not need to cover hundreds of miles to fill a motorcycle day with fun and excitement, so a relatively small area is enough for us for this tour.

# ACT PYRENEES UNPAVED - ANDORRA / FRANCE / SPAIN

## ONLINE BOOKING & DETAILS

[WWW.EDELWEISSBIKE.COM](http://WWW.EDELWEISSBIKE.COM)

THE PYRENEES HAVE LONG BEEN KNOWN TO BE A PARADISE FOR MOTORCYCLISTS AND MORE THAN JUST AN ALTERNATIVE TO THE ALPS.

Off-road aficionados in particular can find their bliss in this mountain range that stretches along the Spanish-French border all the way from the Mediterranean to the Atlantic Ocean. With Touratech developing their Adventure Country Tracks and Edelweiss' knowledge of how to set up and conduct memorable motorcycle tours, joining forces seemed like a natural conclusion. So, we did. This tour incorporates the original ACT as much as possible without sacrificing the typical comfort you can expect on an Edelweiss tour. You will spend more than half of your riding time on unpaved surfaces which can be anything from forestry roads to rough mountain trails. They may be steep in places, wet and muddy after rains, and even water crossings are possible. The one thing that all these tracks have in common is their remoteness; they lead you deep into the backcountry, where the land seems untouched, and the scenery is gorgeous. Of course, the paved sections are beautiful and fun, too, and they offer a (sometimes much appreciated) respite from the dusty parts. You don't have to be an enduro pro to join this tour, but you should be a confident rider with some positive off-road experience. If you enjoy going "off the radar" for a few days and combining the challenge of riding off-road with all the comfort and safety of a guided Edelweiss tour, then this one's for you. Join us in the Pyrenees and give it a go on the Adventure Country Tracks!

### SCOOTING IN THE ALPS ON A VESPA, CAN THAT BE FUN? OF COURSE!

Can a Vespa be the right vehicle to conquer alpine passes like the Kaunertal Glacier Road or the countless hairpin bends of Timmelsjoch? Well, our Vespas have 300 cc 20 hp engines, and a continuously variable transmission; so they are ready for any challenge. Because of the low weight - only 168 kg – and the small wheels you can handle a Vespa like... well, like a scooter, and have plenty of fun.

And if you value performance more than Italian style, you could choose BMW's 400 cc power scooter. Seefeld, situated in the middle of the Tyrolean mountains, is the ideal base for this scooter tour. From here we set out on five great days of riding and get to know not only Tyrol, but also the neighboring regions of South Tyrol and Bavaria. You will soon notice that our scooters feel very much at home here, because less speed means more time to enjoy the countryside. Two of our day tours take us over to the Bavarian Alpine foothills with their beautiful lakes, pretty villages and famous fairy tale castles. And we visit the old town of Innsbruck and the Kühtai high alpine pasture; not to mention the Kaunertal glacier and the especially spectacular road leading up to it. On our final day we tackle the Timmelsjoch; which reaches almost 2,500 meters above sea level and forms the border to South Tyrol. Scooters in the Alps - yes, it's fun!

### A WEEK ON A SCOOTER AROUND AND THROUGH THE CITY OF MUSIC, THAT'S THE VIENNA SCOOTER TOUR!

Vienna is a cultural hotspot no matter what it is you are interested in. The city is modern and lively but also has its sleepy, village corners where the Viennese coziness is at home. Whether downtown or suburban „heuriger“ (tavern) with our scooters we will always find a place to park and can splunge right into the city's soul. We are accommodated at the edge of the city center and start our tours around and in Vienna from here. The location also allows us to explore the surrounding area on foot in the evening, and here historical splendor from imperial times awaits us on one side with inviting bars and promenades, while on the other side the village suburbs invite you to visit a Heuriger. We will explore the most beautiful and varying landscapes from the Steppe lake to the mountains around Vienna on four days of riding, numerous castles and palaces await us for a coffee or photo stop, and small winding roads guide us through the Viennese forest and Viennese vineyards to the beautiful blue Danube. One day we will spend to explore the city itself, a visit to Schönbrunn and a stop in the Wienerprater are a must! If you want to explore more of the city, you're welcome to take your scooter and stay where and for as long as you like. Imperial splendor, music, small streets and good wine from the city, sounds almost like a God in France but no...it is with the scooter in Vienna!

A SCOOTER TOUR IN TUSCANY WITH PLENTY OF TIME TO EXPERIENCE THE ENVIABLE ITALIAN LIFESTYLE.

Scoters are ubiquitous in Italy, and Piaggio's Vespa is the scooter icon par excellence. It is a perfect fit for Tuscany, which is why we have created this very special tour for all you Italophiles. Our base hotel is located in Florence and with it's unique mixture of art and culture, you should certainly dedicate several extra days before or after the tour. From here we set out to explore the surrounding countryside and discover all the things that make Tuscany so unique: San Gimignano, the "Manhattan of the Middle Ages," the gentle cypress-lined hills, the extensive vineyards and the beautiful historical centers of Siena and Arezzo; where you can stroll, shop and have a delightful cup of coffee. We enjoy the leisurely scooter rides along the winding roads of the Chianti region, treat ourselves to gelato and soak up the atmosphere. The mountains in the north of Florence also have a lot to offer; like the Mugello racetrack for example. There might not be scooter races here, but the Vespa is still very photogenic in the entrance. And if you decide to leave you scooter in the garage, there are still lots of tempting activities. Cooking classes, wine & olive oil tastings, pottery courses or excursions by train; you can travel to the Leaning Tower of Pisa, or the perfectly preserved old town of Lucca. CROATIA IS AN OUTSTANDING HOLIDAY DESTINATION. AND ON A SCOOTER IT'S EVEN BETTER!

Croatia's Adriatic coast is famous for its numerous islands, crystal-clear water and perfect recreational climate. Opatija, located in the very north of the country, is the venerable pearl of this region and has been a popular tourist destination since imperial times, as evidenced by the magnificent old villas. The five daily routes of our tour surround the city like petals of a flower. There are plenty of things to see around Opatija and with our scooters we are perfectly motorized to explore intensively. On the Istrian Peninsula we are inspired by the Roman amphitheater in Pula, the oysters and mussels of the Limski Canal and the historical old town of Porec. The two largest of Croatia's more than 1,200 islands, Krk and Cres, are known for their quiet bays and picturesque small fishing villages, where you can enjoy the freshest fish and seafood. And the popular Risnjak National Park is home to bears, wolves and eagles; under a deep blue sky, Croatia's rugged mountains are an absolute feast for the eyes! Slovenia's stalactite caves of Postojna are also on our itinerary; the second largest developed stalactite caves in the world. Traveling through this underground world by train guarantees unforgettable memories, just like our whole tour in the far north of Croatia and the south of Slovenia.

### SCHUBERTH C5 CARBON - THE GAME CHANGER

The SCHUBERTH C5 Carbon is the first-ever SCHUBERTH PERFORMANCE motorcycle helmet. Its full Carbon shell is handmade at SCHUBERTH PERFORMANCE by the same hands of our highly specialized technicians, who manufacture our Formula 1 helmets. Thanks to the manual lamination and the autoclave curing processes, the shell of C5 Carbon combines an extremely light weight with an unparalleled performance. The new SCHUBERTH C5 Carbon features the P/J double homologation and respects the severe ECE 22.06 standards.

The brand new C5 Carbon is the result of the continuous exchange of know-how and technologies between the Car Racing and Motorcycle Business Units of SCHUBERTH. Indeed, it is the first motorcycle helmet produced with the same materials and production processes used for Formula 1 helmets.

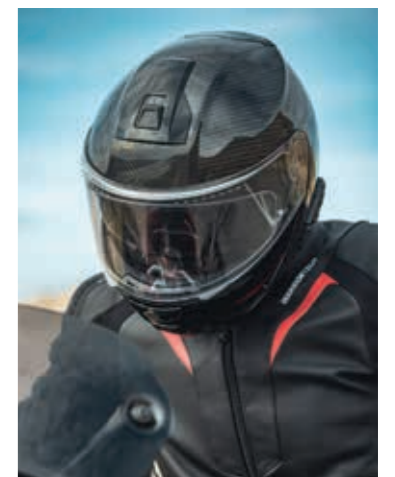

The manufacturing process of the new C5 Carbon is based on the "one man, one shell" principle, which means that the technician who starts the lamination has to complete the entire shell production process.

The shell of the C5 Carbon is made of multiple carbon layers, which are manually laminated into an open carbon mold in extremely precise and predefined directions and positions. This manual process is the highest craftsmanship expression of the motorsport helmet industry, and it results in an unparalleled structural and aesthetic performance.

As SCHUBERTH's Formula 1 helmets, the shell of the C5 Carbon is cured in an autoclave where a combination of pressure and temperature within a precise time frame scheme transforms the carbon fibre layers and their resin into a monolithic piece, which is able to offer an outstanding mechanical strength and lightweight performance.

Despite such a low weight, the new C5 Carbon has all the comfort and safety features of SCHUBERTH premium helmets. This includes high-end antibacterial and breathable linings from Italy, respecting the strict OEKO-TEX®

100 standards. Furthermore, to offer an unparalleled comfort to all head shapes, the new SCHUBERTH C5 Carbon is also part of the SCHUBERTH INDIVIDUAL PROGRAM, which offers multiple customization possibilities for the linings. The new C5 Carbon is prepared for the SCHUBERTH SC2 communication system, featuring the Mesh 2.0 technology. It is pre-wired with HD speakers, HD microphone and three antennas for Mesh Intercom, Bluetooth Intercom and FM Radio. Installing the intercom has never been so easy, indeed, it's enough to remove the cover on the back and side of the helmet, install the remote control in the side housing and the main comms unit in the rear.

# THE TOUR – AT A GLANCE

With our icons you can easily capture the most important characteristics of a tour at a glance. This way you can immediately see which tour fits you best and which requirements are needed for it.

-  **ONE-WAY TRIP:**  
We will start from spot A, stay in different accommodations and end our tour at spot B.
-  **ROUND TRIP:**  
We will start from spot A, stay in different accommodations and return to our initial spot A at the end of the tour.
-  **STAR TRIPS:**  
We will stay in one base hotel during the whole tour and start our daily rides from there every day.
-  **OFF-ROAD (1):**  
These tours partially run on unpaved roads. The length and the level of difficulty of the particular sections may vary. The off-road sections mostly run on good natural and gravel roads. The distance of these sections is usually kept within a limit, sometimes the off-road sections may even be detoured on asphalt roads. You must be experienced in riding on natural surfaces.
-  **OFF-ROAD (2):**  
The off-road sections mostly run on good natural and gravel roads. Yet, some of these sections may be longer, also containing more sand and gravel. Wet conditions may lead to more slippery parts than usual. The length of the individual sections varies from a few kilometres to a whole day's length. You must be an experienced off-road rider for these tours.
-  **OFF-ROAD (3):**  
You must be an experienced off-road rider for these tours. The offroad sections (60%) run on unpaved, hard-packed gravel roads, grass plains, single trails or rough gravel roads. Yet some of these sections may be longer, also containing more sand and gravel. Wet conditions may lead to more slippery parts than usual. The length of the individual sections varies from a few kilometres to a whole day's length.
-  **HIGH ALTITUDE:**  
On these tours we ride at a great altitude for a longer period. Riding a motorcycle in high altitudes is much more exhausting, there may even be a risk of getting altitude-sick. We highly recommend a health and fitness check before booking.
-  **REMOTE AREAS:**  
Medical services, mechanical or evacuation assistance may not be quickly available. Phone service may be bad or even non-existent.
-  **HYGIENE/HEALTH CARE SYSTEM:** Health care systems and sanitary facilities might be substantially lower in standards than in more developed countries.
-  **SUPPORT-VAN:**  
A support-van is available. It does not follow the same route as the motorcycle group.
-  **BACK-UP-VAN:**  
A support vehicle is available, it follows the motorcycle group last in line due to safety reasons. Your luggage will arrive at the hotels at the same time as the last tour members. On some of the tours, this back-up van has an open loading space (waterproof bags / suitcases are necessary).
-  **EXPEDITION-VAN:**  
An expedition support vehicle is available for safety reasons. However, it functions as service / maintenance and first aid vehicle only.
-  **NO SUPPORT-VAN:**  
On these tours, there is no van available. The participants need to pack their belongings on the bike.
-  **TOUR GUIDE IN VAN:**  
The group rides on its own while the tour guide drives the support van and transports the luggage. The tour guide will be at each stop to support the riders. However, no tour guide on the motorcycle accompanies the group.
-  **LUGGAGE TRANSPORT:**  
Edelweiss will transport the luggage of the participants from one hotel to the next.

# TOUR CATEGORIES

**CLASSIC** Our Classic Tours focus on the overall travel experience. In addition to magnificent motorcycle routes, we experience the country, people and culture of the region and enjoy the local cuisine. A legendary Edelweiss picnic here and there is an absolute must. Your luggage will be transported from place to place and wherever possible, we sleep in very good, hand-picked and comfortable hotels with regional flair away from the hustle and bustle.

**ROYAL** Are you dreaming of being treated like the "Royals" during your well-earned vacation? Based on the concept of our Classic Tours, our Royal Tours offer you even better lodging with that certain something.

**ADVENTURE** These tours are perfect for those who love adventure. Together we discover exotic destinations or travel to regions where we occasionally reach the limits of our comfort zone. Even though our Adventure Tours will not always run on asphalt roads, you don't have to be a motorcycle or off-road pro to participate. Instead, a spirit of adventure, open-mindedness and curiosity are essential to enjoy the tour to the fullest.

**RIDE4FUN** Our Ride4Fun tours are all about motorcycling and about some more motorcycling. We will visit fewer attractions than on our Classic Tours but spend more time on our bikes instead. Our motto is „regional and local“.

**TRAININGS** Riding a motorcycle should be fun but riding safely always has priority! That's why we have developed special programs to help you hone your skills and increase your riding pleasure and safety while on tour.

# HOTEL CATEGORIES

An important aspect of any tour is the choice of accommodation. In addition to the quality of the service and the amenities of a hotel, other aspects such as easy access and parking and the size or regional flair of the establishment are also important when we choose accommodation for our tours. For easy orientation, we have evaluated the type of accommodation chosen for a tour by using stars. For example, the 4-star hotel symbol (★★★★) means that most of the selected lodgings on a tour are 4-star hotels, but due to local or other circumstances, there may be simpler or better alternatives. Please also note that there may be considerable differences within a hotel category depending on the destination. For example, a 4-star hotel in the Alps is not necessarily comparable to a 4-star hotel in Latin America.

# TOUR GRADING

One of the most important requirements for a relaxed holiday is the choice of the right tour. To make finding your perfect journey easier for you, we rated every tour according to its difficulty, riding time and sightseeing time. If you still feel unsure about which tour is the right one for you, our travel experts will gladly help you with all your questions.
